For best results, we suggest placing a pair of socks over the plastic booties and strolling slowly for a while to circulate the liquid over the entire foot. This cleanser is so value it. It's great for sensitive and eczema inclined skin. It is great to have included in your skincare routine specially during the harsh winter months. And secondly takes off all of the dirt and make up in a single go which is all the time a plus. I would undoubtedly suggest this to different people and you just can't beat the worth for the product.
