# Our Mission

**The token emission is for  
burn and buyback utility can  
certainly help achieve the goal of  
benefiting both missions  
dog rescue  
and for token holders.**

Finally, by implementing a successful marketing strategy that incorporates the buyback and burn utility, can reach a wider audience and increase interest in your token. This can lead to more holders and increased buying pressure, which can further increase the value of the token and provide even greater benefits to all stakeholders involved.

## **Burned Tokens**

**ShibonAi Burns coins manually by events that take place, so that the supply decreases and send them in a burn wallet**
