

NEWS LETTER

 @ict4iid

 ict4iid@gmail.com

Welcome to the ICT4IID community! We are already many participants around the world. It is open for more participants, so please inform about us. The purpose is to create new projects, collaborate around existing projects and provide educative interaction: Webinars, meetings, conferences etc. Focus area, see mission statement.

See upcoming webinars on the website: we are preparing “ICT tools seminars”, “PhD seminars”, and “Thematic seminars”. You can also suggest thematics and host a webinar, inform us via: ict4iid@gmail.com. If you are Participant, Contributor (presenting) or Moderator in a webinar you will be awarded a Digital Badge. For webinars we will use Zoom. Additionally you can use LinkedIn, Twitter and e-mails.

In the Gallery section we have prepared for images and videos taken by ITP change agents at regional phases in the international training program provided by Life Academy and DSV Stockholm University. If you were there and want to share some of your photos on the website, send them to ict4iid@gmail.com, add Description (one sentence, what is it?), Photographer (name), Date, Place.

Please send your organisation’s logo and URL, so that we can add it to the page! Also, link to <http://www.ict4iid.se/> from your organisation’s website.

What happens next? It depends on you! Of course not everyone will be involved in all activities, so it is up to you to be active and suggest how you can contribute.

Best regards

Henrik Hansson
