I was utterly stunned at his words. His words warmed my heart and slapped me in the face at the same time. Good bedside manner was drilled into us every single day in nursing school. I am sure it'll also be drilled into us all throughout our medical training. However, often unrealistic workload, pure physical and mental exhaustion, as well as a build up of frustration clouded the human in us and made us forget that our job is to deal with human beings, not a disease/medical condition.

✿ Lilacs are my favorite flowers! This is my favorite scent! For me, the smell of Lilac is the smell of spring and Youth! All year I have been waiting for this miracle! When they blooms - I am the happiest person in the world! And I also received such a wonderful gift from the universe when I bought my house of my dreams and unexpectedly I saw that a large lilac bush was growing outside the territory of my house. I bought the house in August, it was the end of summer, but I saw my beloved lilac only in the spring when it bloomed I was just insanely amazed and there was no limit to joy. Every year I look forward to spring with an impatience and when my favorite flowers begin to blossom and bloom.
