

Jesus Made the Ocean

Let's look at some things Jesus has made for us. Can you name what's in the pictures?

Do you know all of these are found in the ocean? Today we are going to talk about the ocean and all the special things Jesus made for us to see and enjoy in the ocean.

What animal do you think of when you think of an animal that lives in the water?

I think of fish. Do you know there are all kinds of fish?

They are also many different colors. You can pretend to swim like a fish with your hands while we say our poem.

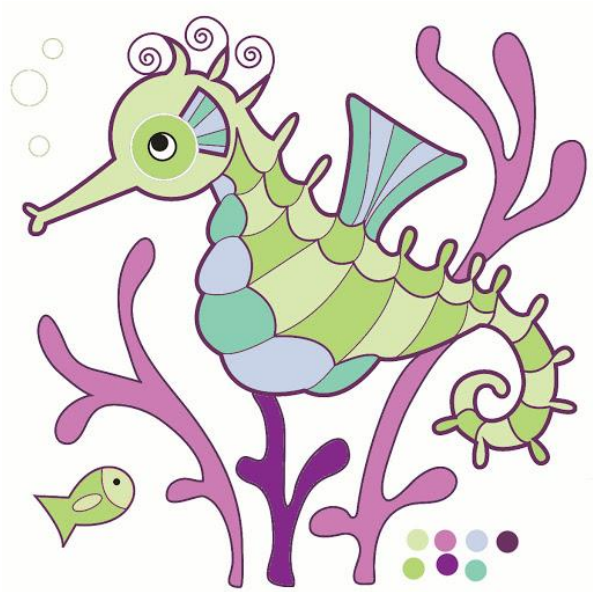

Fishy fishy swim in the water,
Fishy, fishy swishy swish.
God made fishy to swim in the water
Fish fishy, swishy swish.

There are all kinds of animals that live in the ocean world. One animal you probably never thought of is the sponge.

There is an animal that lives in the ocean that has a head that looks like a horse's head.

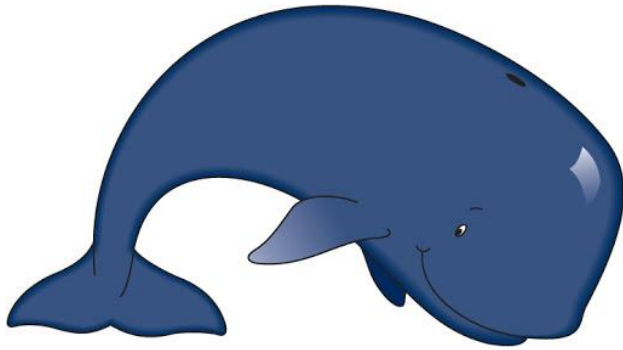

Jesus made the sea stars special. They move around using their senses of touch and sight.

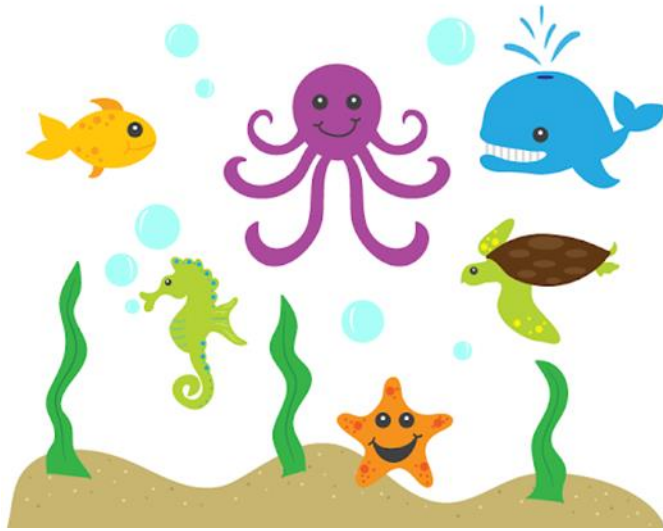

What do you use to feel things and see things?

Wouldn't it be fun to ride on a whale? In heaven we may be able to
play with real whales.

Little baby whale says "God made me
He made all my family"
Little baby whale says "God made me
To swim in the sea"

Wasn't that a wonderful day at the ocean. We were able to see all the things that Jesus has made and how He even takes care of us at the ocean. Can you pray with me now as we thank Jesus for the ocean?

-PRAY-
