AMARANTH OIL

There are many benefits of amaranth oil, which is why it is highly recommended that you try it out. Amaranth oil can be beneficial to your skin in many ways. It can help prevent premature signs of aging and even serve as a good cleanser. Amaranth oil can transform your skin and give you a naturally clean, clear and beautiful look. Amaranth grain contains a high level of protein, between 16%-18%. As well as its protein, Amaranth grain contains a lot of Calcium, Phosphorous, Iron, Potassium, Zinc, Vitamin E and Vitamin B. Amaranth Oil is also characterized by its richness in squalene content. This content in squalene is unique in vegetable oils as squalene is normally found in high concentrations only in shark liver oil. Because of its rich squalene content, Amaranth oil represents a valuable product for skin care. Squalene is a skin-related, well spreading lipid and triterpene with anti-oxidative properties.
