Positive Cases Symptomatic vs. Asympto...

Positive Cases by Age Group

Contraction of the Coronavirus this week was a mixture of known contact and community spread.

We want to encourage all county residents to be safe. Remember that it is more important than ever to practice physical distancing and stay at home when you are ill. Wear a mask if there is a possibility you will be within six (6) feet of someone you don't live with.

Mills County will continue to release these numbers on a weekly basis. For further statistical data available, in near real time, visit the Iowa Coronavirus webpage at <https://coronavirus.iowa.gov>
