

Often, participants in game rounds choose entertainment not only for their taste or interest, but also for the developer. It is important to play with those manufacturers who have established themselves as honest and reliable, who are responsible for the development of any game product. One of these developers is the company [NetEnt](#).

For more than twenty years, employees have been creating quality software. Specialists skillfully combine their many years of experience and innovative achievements of modern science and technology, thanks to which they manage to not only offer incredible products, but also become one of the five best companies producing digital entertainment software.

We can safely say that in the near future this company will not give up its leading position in its niche, because specialists manage to create game products with minimal workloads, but at the same time with a fantastic design and plot. This means that any player can take part in the rounds, while he is guaranteed convenience and all the benefits are provided.

Reliability level

This software manufacturer can be called reliable due to the fact that each operation is actually transparent. The company is licensed by Malta. Each player knows that the presence of licenses and permits additionally testifies to the reliability and security of the institution, as well as the company's products produced under this logo. It is unlikely that today there are casinos in which the games of this developer are not represented.

Company Projects

The company is engaged in the creation of gaming software. They have more than two hundred games. Employees develop not only [online slots](#), but also other types of entertainment, for example, baccarat, roulette, poker and various scratch cards.

The random number generator used by the company has passed all the necessary tests and is recognized by other companies, which indicates its excellent work and honesty. The level of return to participants at rates in products from the company is one of the most beneficial for the player, this indicator varies from 96 to 98.5. It is in the games from this developer that there are so many payouts.

Progressive jackpot

Not all developers can offer progressive jackpots. Fortunately, this company has a very pleasant progressive jackpot for participants. By the way, precisely because of this, one of the players became richer by 17.5 million euros. Among projects with this type of winnings, there are ten projects at once. In them, the progressive reward is from 0.5 million and can reach even 2 million.

It is this company that is an advanced developer and finds interesting solutions for attracting participants. Developers know how to surprise and do it efficiently. Due to the fantastically high awards, as well as fascinating stories, the products from this developer are in such demand all over the world.
