Please take a guess and write the amount in above that you think Bitcoin will be worth on 15 August 2020. Any guess is allowed, even zero. Then have a look at this flyer again in a year to see how close your guess was to the actual price on the day.

If you truly are interested to learn about the technology behind Bitcoin, you will have to take responsibility for your own education.

DO NOT respond to advertisements about Bitcoin on Facebook or spam emails or Internet popup adverts. There is a high likelihood that those are just scams.

DO NOT trust mainstream media and the banks to tell you the truth about Bitcoin. They have their own agenda and don't have your best interests at heart.

DO your own research. Go onto YouTube and lookup videos by brilliant people like Andreas Antonopoulos, Saifedean Ammous and the World Crypto Network. If someone in your family or circle of friends know a lot about Bitcoin it might be wise to talk to them because they will likely give your their honest advice without expecting anything in return.

BE VERY CAREFUL of people that try to convince you that some other crypto is better than Bitcoin. There are a lot of want to be coins but there is only one true Bitcoin, **BTC**.

NEVER put any money into cryptocurrency that you can't afford to, and are not willing to lose.
