

# Thrive Architect - Installation and usage With Ilya Gurman

Copyright © John Crestani, Pendragon  
Labs LLC 2020

# Briefly

- **It's an Alternative to Clickfunnels at a more affordable price**

*'Thrive Architect is the visual page builder that is built from the ground up for business and conversion focused websites'*

It is a plugin installed on your wordpress site, with which you can create any **landing/presell page** you'd like, using the different templates

# Purchase

<https://johncrestani.com/thrive>

- Go to the link above and [use this guide](#) to follow through with getting Thrive Architect.

# Installation

## **Video Tutorial for installation:**

<https://support.johncrestani.com/hc/en-us/articles/360041879913-Thrive-Architect-installation->

## **Your Thrive site Dashboard:**

# General Usage

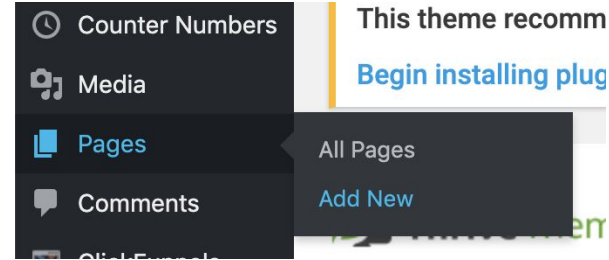

- (Screen-share demonstration of usage)
- The pages are yours, they belong to you.
- 300+ templates, free. No paid templates.
- No limit on funnels/pages.
- No monthly fees.
- More compliant with Google & Facebook.

# Usage I: SAS Presell Page

- Download the Thrive Architect SAS Survey Presell page [here](#).
- Here you can find the tutorial on how to add it to your Thrive Architect landing pages:
- <https://support.johncrestani.com/hc/en-us/articles/360041423314-How-to-add-SAS-Presell-Page-on-Thrive-Architect->

# Usage II: Build any presell page

1. Add a new page on your Wordpress Site

2. Click the large 'Launch Thrive Architect' green button to start editing.

**(Screen Share demonstration for all other steps)**
