Aston Martin V12 Vantage Vehicle Alarm and Immobiliser Systems

Aston Martin V12 Vantage vehicle security features are as follows:

- The Aston Martin V12 Vantage Security System comprises both a vehicle alarm system to prevent unauthorised entry into the boot, cabin or engine bay, also a passive immobilisation system which only allows engine starting when the correct electronically coded key is inserted into the ignition key system.

- The total Security System has the following features/functions:-
  ⇒ Combined door locking and alarm arming via a remote key transmitter
  ⇒ Automatic double locking , locks both inner and outer door release handles
  ⇒ Perimeter sensing via switches on the doors, boot lid and bonnet
  ⇒ 120 db siren (where legislation permits), with battery back-up
  ⇒ A visual and audible alarm sequence
  ⇒ Boot unlock function via remote key fob
  ⇒ An automatically locked cubby box
  ⇒ Random code encryption to prevent electronic scanning or grabbing of the key fob code
  ⇒ Passive anti-theft system providing three point immobilisation acting on the starter, fuel injectors and fuel pump circuits with random encryption. Plus Electronic Steering Column
  ⇒ An Electronic Steering Column lock
  ⇒ Interior scanning sensor protecting the cabin area (Optional Equipment)
  ⇒ A vehicle tilt sensor (Optional Equipment)

- The vehicle is also provided with a Category 5 Tracker device as standard equipment on all UK specification cars

If the information provided above does not satisfy the requirements of a specific Insurance Company, or should you wish to install Supplementary Security Devices, then please contact Aston Martin Technical Services on : +44 (0) 1926 644720, facsimile: +44 (0) 1926 644733 or email: amtech@astonmartin.com .
