# ABOUT

Sky Siouki is an independent design brand offering an artistic range of digitally printed homewares and gifts. Each design stems from lovingly hand-drawn illustrations and abstract paintings, taking key inspiration from the natural world and modern art. All products are made in the UK using natural, high quality materials, fulfilling Sky Siouki's aim to offer a unique range of beautiful yet ethical products.

The current design collection *Flight* focuses on the ethereal beauty of birds. This distinctive selection of artwork features detailed studies of various different bird species amongst abstract painted landscapes and rugged foliage. Behind each stunning illustration are subtle, painterly transitions of natural greys and browns contrasted by occasional streaks and sprays of bolder hues. Fragments of gold leaf peep out from thick patches of oil paint overlaid with delicate botanical drawings suggesting scenes of unexplored wilderness all printed onto products with an organic feel. The designs are available on a range of products ideal as gifts which include giclée prints, stone coasters and placemats, tea towels and cards.

## BACKGROUND

Sky Siouki was founded by Sky Procter in 2013 following the achievement of a first class honours in Textile Design from Nottingham Trent University. Having enjoyed the work she did during her degree so much Sky chose to expand on her final collection and start up business as an independent design brand after graduating. Following the launch of Sky Siouki, Sky's design style and product range has gradually evolved in response to customer feedback and fresh sources of inspiration. Since the launch of the Flight collection in 2015 the brand has gone from strength to strength with many new and exciting developments continuously on the horizon.

## ETHICAL PRODUCTION

Keeping all production ethical and UK based has always been a core value for Sky Siouki right from the beginning. Sky chooses digital print not only because it compliments her design style, but also because it creates far less water and dye wastage than screen-printing. All manufacture is entirely UK based reducing Sky Siouki's carbon footprint and supporting the British economy. Recycled packaging is used where possible, and only high quality natural materials and FSC approved card is used to produce products. Sky strives to keep wastage as minimal as possible and only uses other independent UK businesses when outsourcing services.
