

The words of Glarthorn the Prophet of the Forest, when he was writing for Aldaron the Huntsman as the forest was sprouting. Look closely, you people in the forest! Do you see? The trees are nearly fully grown. In just  $(\sqrt{752/188}) \times 10^0$  days from posting this scroll the forest will be fully regrown! When the forest is fully regrown, be careful, because Ancalagon will send his finest dragons to attack the forest, so as to burn it again! So this is what you must do: Defend the forest at all costs! Do not be afraid! Do not let the forest burn, because Aldaron will be with us to give us ice shields. To get an ice shield, you must say to him: "Master Aldaron, please, give to me an ice shield for the sake of the forest!" And may Aldaron give you an ice shield. The shield you must wear, and it will give you some protection from the dragon fire. When you wear it, be careful not to let any mocking words come out of your

mouth against the forest. If you do, and it will be seen, you will be certainly sentenced to clenching of your jaw for 10 days, and at the end, if you can even speak, you will be given a pardon by Aldaron. If you can not speak after clenching your jaw for 10 days because of your foolish and stupid idiot words, you will need to be washed in the forest river.

This is what Aldaron says: "I am the one who you see in the sky, the star hovering in the atmosphere. The time is fast approaching when I will manifest a body once again! And I will have a cosmic bow and cosmic arrows, and I will go out to capture the tridents: the sea trident, the wind trident and the trident of the land. Then, I will forge a master trident; The Trident of Earth. But alas, the prophecy states that I, Aldaron, will fall into shadow. Then, my Trident of Earth will be passed onto a worthy warrior. If anyone tries to stop me from making my

trident of earth, this one should instantly die. I am Aldaron."

The words of the prophet nook, who quit Penguin3D. This is what Nook says: "Why should my own prophecies not come true? Why do you always want to change my prophecies to suit yourself? Do you have NO RESPECT FOR THE FOREST ANYMORE?"

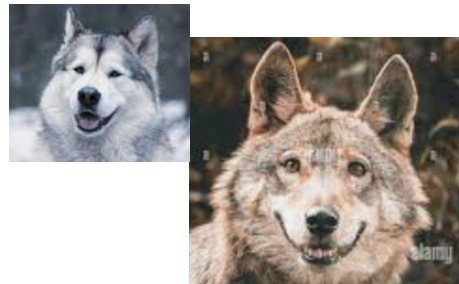

So I left the game to make a POINT. So have I made it yet?" So nook certainly prophecied: "I will return and rebirth Alexander in the lake of Dorval at night!" So Nook was asked by Glarthir: "Come and rebirth Alexander, because you are

the one to do it." Before this, Aven, son of Aron, son of Rosarion came and said: "Please, do it now, right here!" But Nook became hot with his anger inside and ragequit. But now he is back to make a difference to the world. But he won't login until he is given these things:

- 1) An apology from ALL OF YOU
- 2) A bodyguard
- 3) The title 'Prophet'

Nook says finally: "Is this too much to ask after all ive done for you?"

When the south was in its early life, and the first bricks of the castle were laid... there was a king in the land called Rocketsnail. But in the west, far away, there was the great lord of the Disney

universe called Mickey. And in his kingdom there was a news reporter working there called Lane. Mickey said to him: (EVIL VOICE) "GO, SPY ON THIS LAND FOR ME." So Lane packed his bags and went on the long journey. There he met Rocketsnail who said: "Hi! I'm starting a new life here." Lane just wanted to punch him so bad, but he held back because he needed to keep his cover.

(Lane, in the flesh)

So Lane said: "You are my boss now. I will work for you and help you!"

But Rsnail was suspicious (because he knew that

Mickey was looking for him, because Rsnail actually was a smart guy and was a threat to Mickey VII in those days).

"Who are you, what is your name and where do you come from, might i ask?" said Rsnail.

Lane said: "I am uh.... (he makes a name up) Billybob!"

But his actual name is actually Lane. But Rsnail didn't know he was making it up.

"Ok! Come and work for me! what are your strengths?"

"I am a great moderator, I moderated.... ummm.... somewhere before. Oh and a news reporter!"

But Rsnail was receiving a phone call at the time, so he had to answer it. "Sure sure,

just start tomorrow. I'll see you in the dojo."

So the next day "Billybob" aka Lane the spy went into the Dojo. He met the Ninjas of Rsnail, who bowed to him. Rsnail said: "This is the start of a new kingdom. We want freedom from Mickey. Do you agree?"

Billybob was writing all this down in his notepad, so he could show it to Mickey.

"Yeah I agree!" he said (lying). Lane/Billybob just wanted to PUNCH Rsnail so badly, but the Ninjas were there, so he didn't.

A few weeks later, Rsnail gave Billybob the rank of News Reporter and Moderator, because Billybob/Lane was VERY convincing.

Then on the night he was going to leave secretly to go

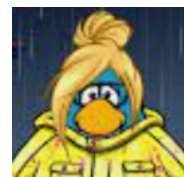

and tell Mickey the news, he met a beautiful girl called Laura Daffo (she was also a moderator).

"Oh hi! I've not met you before! I'm also a mod here!" she said.

"Oh, hello. I am Billybob-"

"I've heard all about you! I love your articles about the viability of building a pet store next to the pizza house, its a really good idea! I also signed your petition to end puffle slavery!"

Billybob was just completely mind blown because this girl was SO SEXY.

Three months later...

"Laura, will you marry me?" said Billybob in the Pizza Parlor on a date.

"Y... y... YES!" she said, crying and laughing.

Meanwhile in Disney World:  
"WHERE THE (Expletive) IS LANE? I NEED A REPORT."

"Sir... he might be held hostage?"

But suddenly, why look! It was THE BLACK MASS.

"Pythas... tell me... where is Lane?"

the shadow said: "He has betrayed you!"

- Cut back to the wedding -

(Wedding music plays).

Billybob kisses Laura. They are now husband and wife. Billybob had two sons and one daughter. Sadly, when the children were no older than 7, Mickey invaded the land of Rsnail, the south where he built his kingdom on top of ancient forest

kingdom lands and he went missing. The helper and regent to Rsnail, Argon Spike, was murdered by Mickey when he sacked the thrones and his son Damen Spike became Emperor in his place over the Empire that Mickey had control over. Now these were the sons of Billybob: Dice, Declan and the daughter was Sled.

Billybob was buried next to Laura, their corpses were burnt to ash by Mickey and he buried them in the Undercrypt where also lies Screenhog and other old moderators who were killed when Mickey himself invaded the lands in the days before the ice ghost war.

At that time, underneath the forest, was the ice children (me glarthir, mexico and the youngest nook). In fact, we were with Rsnail, but he actually died in the Djinniri temple when the Ice ghosts were disturbed.
