

Nu Rejuva Skin Care Products

Alcohol - It is referred to as a dehydrate agent. It desiccates the moisture present in the skin, as a result the skin turns into dry and chappy. [Nu Rejuva Skin](#) Your skin no greater remains tender and smooth.

Parabens and Dioxanes - I was stunned once I came to recognize that scientists observed traces of Parabens after they conducted biopsy of cancerous tissues. It sounds horrifying to me that I can get Cancer if I use merchandise weighted down with Parabens or Dioxanes. As a thumb rule, stay away from artificial and <https://www.healthmassive.com/nu-rejuva-skin/>
