

Time to Laugh Again...

Ol'fashioned comedie scripts

writer: William Dunn

Comedy Screenplays, Plays and Sketches and Storylines in text or script form for your consideration.

My name is William Dunn and I am mostly a Comedy/Satire Writer, I have not long begun to write for screenplays, theatre plays and sketches and storylines for TV soaps, drama and cinema films. I prefer comedy but will also write for serious films and TV and theatre. I did outline a storyline for a female Bond, Jenny Bond, niece of James Bond and intended for Roger Moore to play Grandad Bond, but the storyline was rejected by Eon Films makers of James Bond. Idea recast as *Xandria Templar* synopsis based on Simon Templar The Saint. I did write two comedy storylines for ITV's *Emmerdale*, but producers would not use them.

Non-Comedy ideas in development: Updates for The BBC's *Strictly Come Dancing* TV show. A serious for a documentary for exploring Racism and then a follow-up audience participation .

Also a Photographer and designer of *Lumineux* The 'Camera of the Future'.
