## WHAT ARE SERVERS?

DISCOVER GIGANTIC COMMUNITY-RUN WORLDS FUELED of FUN and countless FRIENDS

Servers are huge online worlds, created by our official partners, nice people from the Minecraft community within the Minecraft community. Each offers its own brand of fun, with unique minigames where you can compete or collaborate with friends (and foes) huge lobbies where you can socialize with other players and vast custom-designed worlds to explore.

## CONNECTING SERVERS

A free Xbox profile is your entry point into the world of Minecraft online multiplayer

It's easy to connect to our official server partners - just look for the "Servers" tab in the Minecraft game menu on your Windows computer, mobile device or tablet, Xbox, Nintendo Switch or PS4. Before connecting, be sure to sign up for your free Xbox profile (no Xbox required!) To get an Xbox Gamertag, your username and profile will be added to the Minecraft universe. Minecraft Xbox Live Gold subscribers are required to have access to all online content.

## SAFE AND WELCOME

SERVERS KEEP PLAYERS OF ALL AGES SAFE WITH CHAT FILTERS and IN-GAME REPORTING

Everyone should feel at home in Minecraft! This is why we insist that players sign up for a free Xbox profile before they are able to join servers. An Xbox profile includes a player's ID and is linked to real player information so that our support teams can respond quickly to reports of unruly behavior. Chat filters are available on the in-game Servers tab. They remove bad words, email addresses and phone numbers to keep your personal data safe and secure.

We also keep younger players safe online with child accounts. Users under 13 have online multiplayer disabled by default. They will not be allowed to join Realms or servers until the account is changed by their parent. settings.
