 1. Data compiled by POLIDATA with assistance from The Cook Political Report. Data collected from state and local election authorities. NY from Skyline Consulting.  
 2. Even though some states do compile results by district, all data should be considered preliminary. Final review will tabulate final percentages and vote estimates.  
 3. All percentages are rounded and based upon total vote. The percentage for other candidates is excluded from this listing.  
 4. Districts with a close margin in the Presidential vote are flagged by a pound sign (#). Use these data with a healthy degree of skepticism.  
 5. Pres/Cong is indicated for "turnover" districts. In 2016, CR for CLINTON REPUBLICAN; TD for TRUMP DEMOCRAT.  
 6. Net% is compared to the 2012 percentage for the 2016 district; reaggregated if districts have changed.

2. Even though some states do compile results by district, all data should be considered preliminary. Final review will tabulate final percentages and vote estimates.

3. All percentages are rounded and based upon total vote. The percentage for other candidates is excluded from this listing.

4. Districts with a close margin in the Presidential vote are flagged by a pound sign (#). Use these data with a healthy degree of skepticism.

5. Pres/Cong is indicated for "turnover" districts. In 2016, CR for CLINTON REPUBLICAN; TD for TRUMP DEMOCRAT.

6. Net% is compared to the 2012 percentage for the 2016 district; reaggreated if districts have changed.

1. Data compiled by POLIDATA with assistance from The Cook Political Report. Data collected from state and local election authorities. NY from Skyline Consulting.

2. Even though some states do compile results by district, all data should be considered preliminary. Final review will tabulate final percentages and vote estimates.

3. All percentages are rounded and based upon total vote. The percentage for other candidates is excluded from this listing.

4. Districts with a close margin in the Presidential vote are flagged by a pound sign (#). Use these data with a healthy degree of skepticism.

5. Pres/Cong is indicated for "turnover" districts. In 2016, CR for CLINTON REPUBLICAN; TD for TRUMP DEMOCRAT.

6. Net% is compared to the 2012 percentage for the 2016 district; reaggreated if districts have changed.
