

Free Minecraft Server Hosting

We provide a free Minecraft server hosting with the full functionality of a paid server. Your Minecraft server will be free forever. However, at any point you can switch to a premium account, which is a good option for big communities. In this scenario all data on the server will be saved, including the game servers you have installed and their IP addresses maps and mods uploaded, plugins and more. There is no have to purchase another server to transfer information from the free Minecraft server. Everything will be transferred instantly.

Our servers are monitored 24/7 to ensure their uninterrupted operation. We guarantee reliable Internet connection and low ping. Our systems are protected against DDoS attacks. Our free Minecraft server hosting service is compatible with mods and plugins. You can install multiple Minecraft servers simultaneously on one server. You can also modify the server's.jar file. Roof Info don't limit slots. MySQL can be installed on your hosting via our control panel. To connect to the server for gaming you can register a domain for free. Ubuntu 20.04 OS is installed on all servers, and you get access to it through FTP and MySQL.

We operate data centers around the world to keep our systems running all day, 7 days a week. This ensures low ping and an uninterrupted service.
