

The Crime Network

SoundCloud Promotion

In the last years we built a huge network with promoters, DJs, producers and labels on Soundcloud. With the help of our partners and our own fanbase, we are able to promote your music to a huge audience.

How does it work?

If you choose any of the plans displayed below, we will send your track to our partners who will then send it to their partners, so on and so on. You will receive the so called "tracking links" to track all scheduled reposts. That way you will have all insights of which channel does repost your track on which exact time.

How can I order?

For all orders, please send us a message on SoundCloud or via mail (edmcrime@outlook.com) with the link to your track and your desired package. Payments can be made via PayPal (hit us up for alternatives). All details will be discussed via direct message or email.

Please check out which packages we offer below
