

Load Cell - KOBASTAR Load Cell

Load cell

We have rich engineering experience to guide you through the manufacturing process.

Why should you choose Kobastar?

Kobastar uses high quality special alloy steels and aluminum materials to ensure that your weighing applications are reliable, robust and accurate.

Load Cell Cable

Armored cables are more resistant to external influences and provide protection from rodents such as mice.

Load Cell Calibration

Each loadcell is tested on dead weight or hydraulic force testing machines.
