

# Kimber Micro 9 ESV Two Tone

The pocketable 1911-style Kimber Micro 9 series pistol debuted in 2013. The company has since introduced more than two dozen variations, and four more are planned for 2022. The Micro 9 ESV Two Tone(MC)(TP), comes standard with a mini compensator installed at the 5/8x24 TPI threaded mouth. This reduces the pistol's muzzle rise and felt recoil.

## Kimber micro 9 ESV Two-Tone MC TP

The MICRO9 ESV TWO-TONE has a mini compensator which reduces muzzle rise and recoil. This gun's impressive exterior features include an all-metal construction and a weather-resistant slide made of stainless steel. The pistol comes with TruGlo Tritium Pro sighting [Kimber micro 9 ESV Tow tone for sale online](#).

The Micro 9 ESV Two Tone pistol, which is optimized for Kimber's Micro 9 handgun, is the two-tone version of that popular weapon. The 1911-style controls and style make it easy to use. The pistol also has a flat-faced trigger that is match-grade and a flared ejection port. The pistol also comes with Hogue rubber grips and TruGlo Tritium Pro evening sights.

Two-tone finishes are available for the Kimber Micro 9 ESV Two-Tone MC. The steel night sights are mounted in machined dovetails so that you can see clearly in any lighting condition. The magazine well is also flared and has a magazine well. The Micro 9 ESV also features porting on both the slide and ball mill. For maximum durability, the barrel is Titanium Nitride-coated.
