We achieve this by creating a “business machine” that works for you 24/7 where your only job is to oversee the system, not to create products, or services where you have to chase new clients or deliver to them.

And as a result...this frees you up to live and enjoy your life while the business works for you – this is the Secret Email System.

The Secret Email System is a shortcut.

Before I created the BMG10 Method – I was struggling with my online business for years and was on the verge of giving up.

I was working 60-80 hour weeks, chasing and talking to clients at all hours of the day – including weekends.

I built myself a job I never signed up for.

Which led me to questioning everything and eventually turning the entire online business model upside down, breaking all the rules and freeing me from the chains of “running a business”.

After several years of trial-and-error, testing everything and

figuring things out the hard way – without anyone guiding me I’ve finally reached a point where I turned my online business into a machine that operates without me.

Now, you have the opportunity to duplicate the entire Secret Email System I built by downloading a \$5.60 ebook called the Secret Email System.

Here’s how it works:

From: the desk of Matt Bacak

Re: Your Freedom (and why this is your only way out)

Dear Future Email Marketer,

Surprised to see a \$5.60 book on a sales page built to sell a \$500 product?

I thought you might be...

Would it surprise you, even more, to learn that I sold over \$23,480,824 worth of digital, physical, low-ticket, and high-ticket products & services....

Including...

- ✓ Affiliate products
- ✓ Flash Drives
- ✓ CD's
- ✓ Books
- ✓ House
- ✓ \$20,000 Coaching Programs
- ✓ Strategy Sessions
- ✓ T-Shirts & Hats
- ✓ Mobile Apps
- ✓ Software

- ✓ Domain Names
- ✓ Clicks
- ✓ Promotional Mailings
- ✓ Home Study Courses
- ✓ Group Coaching
- ✓ Virtual Events
- ✓ Live Events
- ✓ Interviews
- ✓ Hand Written Notes

I sold all that using the same exact email marketing system which this new \$5.60 book reveals.

Skeptical?

You should be.

After all, you can't believe everything you read online 😊

So Let Me Prove It To You

But first, read this disclosure:

It took me 3 years and \$65,000 of trial and error to figure out everything to the point where it just works...

...and you being completely new to this – can still fail, because even though you're taking the exact system I developed; if you do not apply it, you will still not get results.

The only time you can and will get results with this system is once you implement it.

And once it's up and running – it only requires about 30 minutes a day to operate.

15 minutes in the morning to send the emails and 15 minutes at night to send the emails.

What you do in between is up to you.

Typically, I just check sales like these in between:

Which Turns Into This...

And This...

And This...

And that's all it takes...that little work and I was able to generate \$23,488,4244 in the past 17 years working only 30 minutes per day.

**Simply By Just Email Marketing To These
Subscribers On My List**

And I Did It By Using A Completely Counterintuitive Online Selling System That I'm About To Share With You On This Very Page...

The same secret email system that individuals all over the world are now using to generate leads, prospects, sales, customers, and clients for everything from digital products, physical products, low ticket sales, to high ticket sales, to fill seminars and book out webinars...

...To selling books, nutritional supplements, and even consulting services.

And in turn, generating more revenue than they ever thought possible – all while no longer relying on paid and often times expensive and highly unpredictable advertising that's never sustainable.

Which is causing most of these online business owners to fully switch to the new way of growing their online revenue on autopilot – working only a few hours a day using the power of email marketing.

Just Like Devon Brown, Who Used These Strategies To Create a 7-Figure Online Business In Just 8 Months After Being Bankrupt

Devon ended up wasting so much money on useless money-making programs that didn't deliver any results, that a couple of years later, he had to file for bankruptcy.

At that point, in an attempt to make ends meet, Devon started working as a taekwondo teacher and car salesman.

The vast majority of the money he made through those 2 jobs, he invested in various business opportunities, hoping that he'll eventually catch a break and become a successful entrepreneur.

However, he kept failing and failing...

Nonetheless, despite all his failures, Devon didn't quit and eventually got his big break...

After showing him what I do and how I do things he started building a digital email business that now creates a multiple six figures every single year.

I managed to unearth of one of his ClickBank accounts:

As you can see, there are instances where he generates up to almost

\$1000 per day!

The best part? It's not the money.

It's the fact that he didn't have to do it the hard way – it was done the new way.

And Devon Brown isn't the only one either...

This Is Anthony McCarthy, Another Secret Email System Member, Who Also Used The Secret Email System To Have His First 6-Figure Month Working From Home

...Selling other people's high-ticket products and earning up to \$500-\$5,000 / a sale.

...First, one of the things that most people don't know is that the fastest way to make a million is to sell higher-ticket products.

Which is why one of the greatest things about what I will share with you in this ebook and exactly what I told Anthony McCarthy....

You don't have to sell low-ticket things, you can sell big-ticket items too! With the information in this ebook and those words above he ended up breaking \$100,000 in one month.

Here's an email from him that just came in...

But it gets better than that because just a few minutes ago he sent me this...

Here's another Secret Email System owner who started using these strategies...

Meet, Roberto Pastrana, Who Got His First \$800/hr Without Ever Doing Email Marketing Before

Let me tell you a little about Roberto.

He started in 2003.

In fact, in 2003, after he got started and got frustrated because he wasn't as successful as he wanted to be so he decided to put his focus back on his job.

In September 2019, Roberto made a decision and said to himself, "I'm just going to make this thing work no matter what." Using the strategies, I'm going to tell you inside this ebook he ended up finally making it all work.

Now, he's built a list of thousands of subscribers, new subscribers coming in every single day right now. In fact, right at this very moment, he's on top of a leaderboard beating some of the biggest names marketers in the marketplace.

It's absolutely insane how fast he did things when he finally decided to take my advice and make it all work and just the other day he made over \$1,600 in just 2 hours.

Roberto Pastrana

to me ▾

5 sales in two hours generating close to \$1600 in commission. I can tell my wife I made \$800/hr :)

Thank you Matt!

Devon Brown, Anthony McCarthy, and Roberto Pastrana are a group of over 20,500+ new wave of Secret Email System owners who are doing things differently...

And you can BET...

This Secret Email System is unlike any method you heard of before...

...This is something completely different, because...

- ✓ **We don't focus on free traffic strategies** - *because the reality is **NOTHING** is free and usually when something is **FREE**, the payment in the end is a lot bigger.*
- ✓ **We don't focus on Facebook, Google, or YouTube Ads** - *because the algorithm changes weekly and sometimes daily - making it near impossible to build a long-term sustainable business.*
- ✓ **We don't focus on creating our own products or services** - *because creating the product first is a surefire way to fail. How do you know anyone is going to buy your product in the first place?*
- ✓ **We don't focus on building blogs, Instagram, Snapchat, or any type of social media** - *because anyone, anywhere at any time can do it which means if it's easily done, then it's not valuable or sustainable.*
- ✓ **We don't do any content marketing** - *because content is useless without selling something. Who wants to create content for likes, followers, or freebie seekers*

In fact: we rarely do anything that doesn't make us money.

Instead, We Setup A Semi-Automated Money Making Machine Called The Secret Email System That One Thing And One Thing Only – Turn Leads Into Sales

Like I said...

This is something completely different and it has the power to change everything for you...

...and I know that's true...

Because it changed everything for me.

The Secret Email System allowed me to get rid of 99% of all the BS that I

hated in my online business...

- ✓ Like having to manage 3 companies and 157 employees...
- ✓ Like having to go to work every single day and wonder where the next sales are coming from to cover our overhead...
- ✓ Like having to constantly create and sell new products and services - not knowing which are going to work and which won't...
- ✓ Like having to fight advertising networks like Google, Facebook, and YouTube to get the customers that we needed...
- ✓ Like having to pay \$30,000+ a month in overhead to support the business...like web hosting, software, phone services, office rent, etc...
- ✓ Just like you or anyone else who's ever tried to create a successful business online.

The System Freed Me From All That and It Allowed Me To Create An Automated Digital Business, Work Only 5 Hours Per Week, And Travel The World Doing Things I Enjoy Love Doing With My Family

We have a saying in Peachtree City, Georgia...

We work to live. Not live to work.

So with that in mind...

Here's what most digital businesses look like (and If you've ever ran an online business then I'm sure you can relate)...

I call this the "Online Business Road To Disaster":

- ✗ **Step 1** - Go out and create a product.
- ✗ **Step 2** - Create a branding page - something that's going to brand you or your company
- ✗ **Step 3** - Create a blog - one of the things that worked 10 years ago. Blogging is on the decline. Even Buzzsumo revealed that content marketing is less effective than it was 3 years ago and it's still

trending down.

- ✘ **Step 4** - Create a sales page - now most people are telling you to do this because they're trying to sell you sales pages (usually using their software to do it).
- ✘ **Step 5** - Create an upsell page - you know that software they want you to buy? That'll help you make that happen.
- ✘ **Step 6** - Create a members area - because usually, the software is going to create it for you as well.
- ✘ **Step 7** - Go out, spend money on advertising, and hope and pray that your product will sell.
- ✘ **Step 8** - If you're one of the lucky ones to get sales, then you'll have to go out and do customer support.
- ✘ **Step 9** - Prospect deflects with something along the lines of "just need to discuss with my team"
- ✘ **Step 10** - Repeat step 8 and 9 a few times
- ✘ **Step 11** - The whole thing fizzles out, and tens of hours end up being completely wasted, leading nowhere
- ✘ **Step 12** - Start over

The Online Business Road To Disaster not only sucks, but keeps most of you stuck by forcing you to spend more money than you ever could earn online – while working your ass off and destroying your dreams.

To be honest...

After working with 1,200 people to help them use this system.

I see most on the verge of giving up on the whole idea of having a successful online business.

And I get it...

I mean they could be making more having a cozy 9-5.

And that's why I wrote the Secret Email System book.

I wanted to try something.

Something that – if it worked.

It would change everything for you and everyone else.

But it did take me 3 years and \$65,000 to “figure out” and finally perfect it...

...to the point where my online business runs on total auto-pilot.

Generating 3,000-5,000 brand new customers a month...

...and in turn, making me \$600,000+ / year with only 5 hours a week – while being practically being semi-retired.

**And I Just This Entire System In A Book Called
The “Secret Email System” And You Can Start
Reading It In Just A Few Moments From Right
Now...**

But before you do.

I'd like to introduce myself and tell you about how all this came to be.

My name's Matt Bacak...

You probably haven't heard that name before. That's by design.

My life's pretty good...and I don't really “have to work” anymore...

In fact, I'm partially retired.

I have a beautiful wife and three amazing kids.

...I'm what you consider a very blessed man.

I travel the world, enjoy life, and usually spend time on my 290 acres my online business bought me.

As of writing this, I'm currently living in Peachtree, Georgia.

As We Get To Know Each Other... You'll Quickly Realize That I'm The Luckiest Guy On Earth. So, Let's Talk About Where I Was On December 5th, 2008

- ✓ I had 3 companies (web hosting, publishing, and real estate).
- ✓ I had a private plane.
- ✓ I had my own pilot.
- ✓ I had a 7,650 sq ft house in a gated community.

I had a life and income most people only dream about.

And I was working 90 hours a week to keep it all going (sometimes even sleeping at the office).

And I hated every minute of it.

There I was taking home a cool \$3 million a year while not having the time to enjoy it.

That's when I realized that it's not all about making money.

It's also about having the time to enjoy the money you do make.

There's a stupid myth out there..that if you just build a business, run it for years, and when you're something like 65+ that you can retire and do nothing and enjoy the fruits of your labor.

... Well sometimes it works and sometimes it doesn't...

Usually, what happens in between is you burn out.

And I was the definition of burnout.

And if you want a business that gives you a life of freedom, fun, and adventure where every moment is special – building a big business with the good years to be your last years isn't the answer.

I know, because I tried.

I gave it everything I had.

I gave it my BEST shot.

And despite having all that and taking home \$3 million / year – it just wasn't worth it.

I Built 3 Massive Companies, Got To \$18,842,482 Year In Revenue, Had 150 Employees and a Private Jet and I Wasn't Happy At At All – Something Was Missing...

I realized that if I ran my current business like that – that it would become my life and all my hopes, goals, and dreams of having the life I wanted would be put aside in order to do that.

I wanted more out of life.

I proved the idea of "following the traditional life path" to be all wrong...

Because fast forward to today...and that seems almost like a bad dream.

Instead of sitting at a desk dealing with 150 employees and running 3 massive companies and taking 3 million a year...

I'm sitting at my home library in Peachtree, Georgia at 2:30 P.M. checking my sales for the day.

Chatting with friends and writing this copy you're reading.

I have my own business where I am in complete control of my time, life, and income.

The business is working – while I'm not.

Unlike most other online business owners out there – who work far more than their business works for them...

You see, most online businesses will spend time, energy, and money trying to figure out where their next customers are coming from because they can't afford not to...

... After all, no customers means no sales and no sales means no revenue and no business.

Instead of focusing on the business, they want to have.

They're focused on figuring out how to get it to the point where they even like their business.

I did this for years, and it not only drove me crazy...

It drove me to the point where I was spending more time working than enjoying the money I did make.

Instead of me owning my business – the business owned me.

Wanna Know What The Main Difference Is With The Secret Email System And That “Old Way” Of Doing Things?

I really don't work, because I love what I do.

Instead of dealing with employees, creating products, taking care of customer service or focusing on if the ads are bringing in sales or not...

I do one thing and one thing only – I send an email at 11 am and I send another email at 11 pm.

I send these emails to a list that I built by leveraging other people's products and services.

We do this by creating lead feeder websites because the truth is – 99% of online businesses don't even know where to begin when it comes to monetizing their email leads.

So here's what my business looks like:

The result:

I simply send an email out and all day and all night I get sales.

And the best part...

I make money while I get to experience new things with my family. Like last week when I had wild hair to go drive a race car on a dirt track.

The really cool thing is that...

If you follow every single step that I teach, you end up with an online business that just works right...

But it's much more than that...

It's Actually A Lifestyle-Building Machine That Generates Cash Every Month, Month After Month, Year After Year...

How many online business models have you seen come and go through the years?

People starting Shopify stores and being out of business after 2 months because 48 other people started selling the same product that was carrying their whole business.

Or others starting private labeling products and selling them on Amazon only to find out their private label suppliers are now competing with them...

My online business has been alive and highly profitable for 15 years straight.

That's a solid cash machine if you ask me.

But the best part is I try not to get too involved in my business.

The "system" behind it does everything for me.

Now, speaking of longevity and the system...

I'm going to share something that's a little bit disturbing with you.

Here it goes:

I am LEAVING MONEY on the table by showing you this.

And the other gurus out there are making loads of money by teaching the opposite of what I teach.

Get Your Conspiracy Theory Tinfoil Hat Out...

Ready? Ok.

If a guru tells you (they all do) that the key to make it with an online business is to just to create a product and run ads – you should be wary.

Here's why:

Let's say they create a product (which is hard in itself)...

...Then they have to write sales copy to sell the product.

...Create fancy graphics.

...Record, edit, and chop up videos in a professional setting.

...Then package it all up and go run ads on Facebook, Google, or Youtube.

...And you know what – most of the time it doesn't work.

How many people do you see lingering in various Facebook groups talking about running an online business...

...And compare that with how few actually get results?

Very few.

Now here's the thing: after selling \$23 million worth of products and services online – I realized one thing.

I rather generate sales, get paid, and not do anything else.

Because, The Truth Is – Whether You Make \$100 From Selling Your Own Products Or \$100 Promoting Other People's Products And Services – It's The Same \$100

It's just that promoting other people's products and services is a whole lot easier since you don't have to do much – except generate the sale.

And that's the difference?

We Go For Selling Other Peoples Products &

Services, Collecting 50%-100% Off The Sale While Building Systems That Are Repeatable And Automated

So we generate sales and get paid.

They do everything else and generate sales.

So I could show you how to create your own products, write sales copy, run ads, and all that, but the reality is – you wouldn't want to...

...Because the chances of you actually doing that are near zero.

Or I could show you how to build a machine that works not once or twice, but every single month – without any of that.

So remember this:

The next time you hear someone selling you a course on how to start, grow or scale a digital business...

Consider this:

Are they teaching you to create a complex business where you ultimately lack most of the skills to make it work only to make the entire product sound sexy or are they teaching you how to successfully sell things online where you only need to do one thing and one thing only? Which is generate sales.

There's no hope in that...

...But here's what there's hope in and it's found in this Secret Email System Book, which explains everything.

Because I Promise You...and I Stake My Entire Reputation On This One Promise.

You can build a stress-free lifestyle business of your dreams...

Whether that means making a few hundred extra dollars a month all the way to a 7-figure online business.

And once you start using this secret email system.

Making money online isn't something you ever need to worry about again – or even think about.

It's something that system does for you.

Here's what I want you to do now: set your calendar right now – set it to two weeks from today.

Because If you implement everything I'm going to share with you in the Secret Email System book, that's when you'll start seeing your first sales roll into your business...

I guarantee it.

That's how easy this is.

I know how ridiculous that sounds...and cliché that sounds...

And Just A Few Years Ago... I'd Tell You That You're Crazy If You'd Ever Believe Such A Model Existed...

...But, today I know better.

Listen:

I don't care how many times you've tried to make money online.

I promise you this...

Anyone can generate online sales with the right model (more on this below)...

Ultimately, I want you to know one thing...

If I Can Do This, So Can You!

Here's why:

I already did all of the hard work for you.

I figured it all out.

Which means...there's nothing for you to "figure out".

Other than that, just to download this book and copy the entire model and most important of all – implement it!

That's it...

Because, here's what I came to realize:

Most People (Myself Included) Would Rather Make A \$1,000-\$3,000 A Day Selling Other Peoples Products & Services Than Create A Product, Write Sales Copy, Run Ads, and Do Customer Service...

And that's the difference here.

I'm not saying having your own products and services is bad.

What I'm saying if your goal is freedom, and having a business without any of the complexity – having your own products & services might actually be the thing that's holding you back from getting it!

Your own products require you to work and work a lot.

Creating the products, writing sales copy, writing upsells, recording videos, etc...

Would you rather wake up to sales notifications or an inbox full of customer support tickets and Facebook disabling your account?

Sales notifications equal freedom.

Running your own products equals more work.

Here's why all this matters to you..

Affiliate Marketing Using Email As A Sales Tool Is One Of The Oldest, Time Tested, and Most Legitimate And Easy-to-start Online Businesses There Are

They typically have 2-4 times higher profit margins than eCommerce, and there is an endlessly hungry and ever-growing audience out there.

Just think about it:

- **How many people actually have an email account they check every single day?** Or even multiple times a day?
- **How many companies need more sales?** Hundreds of thousands.
- **How many people are actually buying through email?** A LOT! I did \$23 million in sales using email marketing.
- **How many companies out there are desperate to find new sales avenues that are not crowded?** All of them!
- **How many companies out there would line up to pay you 50% to 100% to help them generate sales?** Hundreds of thousands including Amazon, eBay, and a few other big ones.

You see, there is an endless list of products & services that companies would gladly have you promote for a percentage of sales.

But the one thing I didn't mention yet about the Email Marketing System that sets it apart from everything else is that...

You Don't Even Have To Know Anything About The Product or Service You're Selling

All you have to do is find the email leads (Which I'll show you how to do on page 17), then you can find products & services to promote to those leads.

I've been doing this since 2005 and the truth is this unique sales system has generated over 94,000 customers in the last 10 years and has sold thousands of books, courses, and affiliate products....

All I do is send the emails, that's it.

Which takes me approximately 30 minutes per day.

So most of my work goes to "collecting money".

As you can imagine, having done this since 2005, very unsuccessfully for the first couple of years, and then much more profitably in the later years, I've learned exactly how to do this through trial and error.

In fact, I think it's ...

The BEST Money-Back Guarantee In The World

Here's What's Included In The Book

Discover the exact step-by-step process for finding the most profitable (and proven) offers that can instantly generate income for you. (How I built a 7-figure online business...)

My top 7 highly lucrative, proven and profitable online traffic sources (you can start using today)

The #1 most idiotic thing most people do when they get started. (It shocks me how many gurus tell you to do this as they lie through their teeth)

The most powerful thing I ever heard when I got started (a billionaire said it to me) – it builds empires and helps you retire in happiness.

The 8-letter word that will make sure you can achieve a lot more in both your business and your life. (Even while you sleep)

How to 10x your revenue and profits (all by doing everything in reverse) listening to the sound of your digital cash register.

The 7-step process that made me \$2.1 million in just one year. (that allowed me to get rid of 99% of all the BS that I hated in my online business).

The top-secret self-funding subscriber formula (that took me 6 years to refine) – allowing you to generate an email list while simultaneously offsetting or completely negating the cost of your advertising.

Why focusing on creating a product is one of the biggest mistakes marketers make (and why it will actually kill your sales) – and what to do instead.

The breakthrough 3-X formula that will pinpoint exactly what to focus on – and it's not what you think.

The exact technology I use to put my entire business on autopilot (automating almost the entire process) - allowing me to only work 2 hours per week if I want.

My entire step-by-step digital business process responsible for \$23,480,824 in sales which transforms this into a lifestyle-building machine (this is the core of the Secret Email System).

How to find products you can promote and instantly make money with (this strategy has made businesses millions of dollars and ordinary people millionaires).

The little-known strategy I use to get my subscribers whipping out their credit cards (faster than a cheetah chasing its prey).

An amazing site I use to get commission checks every single week (and you too can use this in your very own digital business) – the best part: You don't even need anyone to approve you at all.

The secret effect that will provoke more purchases every single time (that means more money for you).

If for some reason you do want to create a product, you'll discover the way to have the most irresistible offer ever created – even more irresistible than the ones already on the market right now.

The one thing that separates you from the people who have success (and the money...that you wish You had).

Discover one of the most valuable assets (no not an email list) that you can have in your business – without it, nothing good happens.

Here's What Others Have To Say

Russel Brunson

"There is only 1 marketer that I have personally hired to consult me. I paid him \$1,000 for a 1-hour

consultation. The consultation happened in December, and from that 1-hour call I directly made over \$250k.”

Mark Joyner

“Matt Bacak is one of the smartest marketers alive, but who cares, right? What matters to you is that he’s a consummate teacher. He will not blow your mind with complex ideas – he’ll just hold your hand and show you how to make a wad of cash.”

Mike Litman

“Matt is without a doubt ‘The Powerful Promoter!’ If you want to quickly increase your revenues and line your pockets with money again and again, he’s definitely a Must read, Must hear, and Must see.”
