

**MERAKI**  
**μεράκι**  
**[MAY-RAH-KEE]**

This is a word that modern Greeks often use to describe doing something with soul, creativity, or love — when you put “something of yourself” into what you’re doing, whatever it may be.

## CHAIRMAN’S MESSAGE

---

At “Meraki”, (a Greek word of Turkish origin, used to describe doing tasks with all of one’s soul, creativity, and love), we leave a part of ourselves in all that we do.

For more than 25 years, customer focus, attention to detail and passion have been the hallmarks of our work and organization. At Meraki we are dedicated to building an enriched tomorrow - a tomorrow that improves the communities where we live, work, play and learn.

Meraki is experienced in all our businesses and projects across real estate, education, construction & MEP contracting, landscaping, plant nurseries, structural steel, aluminium fabrication and glass glazing. We manage the entire value chain of our business, from the smallest detailing in the design to the actual construction. This gives us control over the quality and the delivery of our projects, providing our customers with greater value.

We have successfully completed over 100 projects including residential and commercial high rise buildings, industrial projects and an extensive range of villas as the main contractor / developer.

Now, we are delighted to offer, for the first time, our real estate project for sale – Genesis - in one of the world’s most dynamic and multi-cultural cities Dubai.

We assure you of our commitment to delivering a world class product and invite you to be a part of the Meraki family.
