Not only does food insecurity, culture, availability, season, and socio economic status play a role in what food people are ABLE to have, but it has increasingly become a source of judgement. Food just takes up way TOO much of the conversation these days.

Winstrol also referred to as Stanozolol or Winny is a 17alpha-alkylated anabolic androgenic steroid. It is one of the most used performance enhancers amongst athletes. It was first released on the market in the 1960s. Stanozolol was designed to help treat multiple diseases such as osteoporosis.

It is largely for this reason that Winstrol is usually sold as tablets. It usually comes in a 50 mg/mL injection or a 5 mg tablet. Recently, however, 100 mg/ml packages are also being marketed. Doctors usually prescribe a dosage of 10-25mg/day orally and 25-50mg for injections in mild cases, but the best results are usually witnessed at 50 mg/day.
