Our producer for the program, [redacted], met with President Packer this morning, and suggests the following revisions to the graphic illustrations we used in rehearsal yesterday:

1. The First Vision illustration to be replaced with a more realistic painting.

2. All the figures are to be simplified, so they are more universal and show no hair or clothing styles.

3. Rather than "rays" of revelation going to the people in the illustrations, highlight the figure instead, while the others fade into the background.

4. Eliminate the two illustrations showing the puzzle pieces.

We are working now to revise the illustrations. Please inform Elder Maxwell about these suggestions to make sure he is comfortable with them. I received the latest version of the talk sent earlier today. Thanks.
