

WORKPLACE ADVISORY SUPPORT IN THE CONTEXT OF COVID-19

[EPOS Health Management](#) has substantial experience with setting-up organizational structures and implementing infrastructure measures for solid and efficient prevention and control of infections and in the management of disease outbreaks. Our interdisciplinary teams have already been active during other epidemics including Ebola and SARS outbreaks.

We are working with our collaborators to systematically identify, capture, and scale up best practices in organizational responses to COVID-19. It allows us to regularly review our recommendations based on the latest available scientific evidence, on practical examples and [World Health Organization-WHO/International Labour Organization-ILO](#) recommendations.

CORE AREAS OF SUPPORT: *APPROACH CENTERED ON WORKERS*

Comprehensive COVID-19 Policies

Development of tailor-made policies and guidelines for company preparedness and response strategy; support to the managers and workers with ensuring the safety of risk points at the workplace and case management

Adapting Company Premises

Recommendations for the improvement of all different types of company premises (offices, factories, construction sites, etc.), aiming to mitigate COVID-19 transmission among workers

Infection Prevention and Control (IPC)

Implementation of IPC strategies to prevent and limit infections & transmission among workers, improvement of hand hygiene, support for cleaning, disinfection and waste management protocols, processes, workflows, installations and devices

Procurement of Equipment & Supplies and Use of Personal Protective Equipment (PPE)

Ensure the provision of adequate PPE, equipment, consumables & devices; support to the procurement, installation & remote maintenance of goods essential in the context of Covid-19

Communication and Community Support

Produce information to families & communities of workers with visual and culturally adapted messages on pandemic, prevention, measures, hand hygiene, disinfection, physical distancing & transport arrangements; advising on collateral issues like violence within families
