# WINDOW REPLACEMENT- SNAP CONSTRUCTION

A bay window is a combination of three or more windows that extend from your home. They can also be two or more windows high. A bow window usually consists of three or more windows that are joined at equal angles to form an even curve. Bay and Bow windows both have many benefits, including adding square footage and expanding interior living spaces while creating architectural interest on the home's exterior.

Both bay and bow windows can be used with casement or single hung windows for ventilation and additional light.

# RESIDENTIAL HOME WINDOWS MARKETING

It's That Easy! Is a slogan Snap Construction stands by! From our Guaranteed Lifetime Craftsmanship warranty, to high tech communication systems allowing our customers access to their jobs online anytime. We will take the worry out of construction. The people at Snap Construction of Minneapolis is highly skilled, educated, and all around enthusiastic about what we do. We love to educate customers so they can make an informed decisions. We love to build. We love to create. We love customer satisfaction. We demonstrate these values every day by providing detailed estimates to setting up expectations on the job before the work is started and following through until the clean-up. Give and take pride in craftsmanship by rewarding our best with incentives to build better. Give us a call or email us for a complimentary quote on your next project to see how easy it can be.

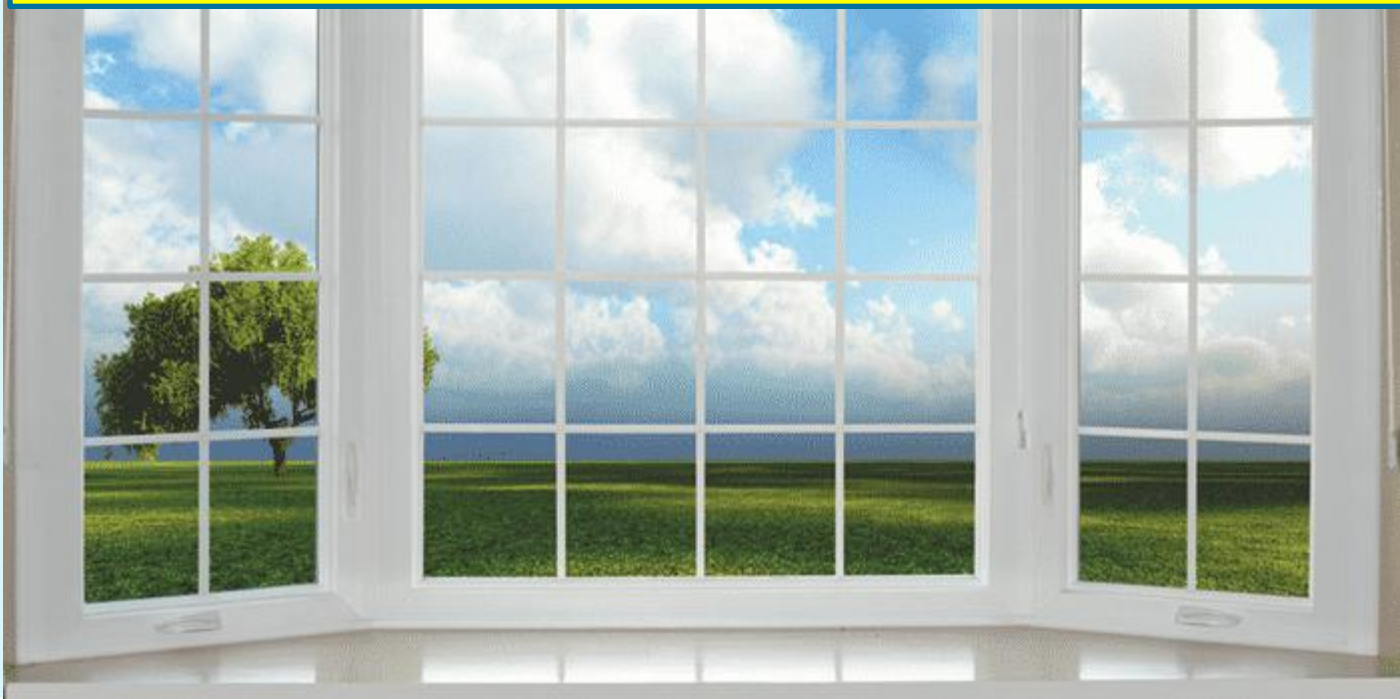

# RESIDENTIAL HOME WINDOWS MARKETING

History: Established in 2007 The idea for SNAP came about as a result of a variety of influences, including my studies at a top-ranked business school, the Carlson School of Management at the University of Minnesota, my experience as an entrepreneur, and construction jobs I held during high school and college. I wanted to create a construction company that really could claim to be the best in customer service and overall value, knowing that success would follow. Hiring procedures have continued to evolve since the onset. We continue to evolve new technology and software systems to improve communication and measure customer satisfaction. Our installation procedures continue to modify and we are now proud to offer a Lifetime Craftsmanship Warranty. We don't offer products from a single manufacture to benefit us; we carry a wide variety as they all have value in particular situations.

# RESIDENTIAL HOME WINDOWS MARKETING

We are experts in home and commercial remodeling in the Minneapolis Metro. We have helped thousands of people with their windows, siding, roofing, doors, insulation, and home energy efficiency projects. We have assembled some of the best in the business when it comes to storm and insurance restoration. If your home has been damaged by hail, wind, flooding, fire, or tornadoes our staff is well equipped to make sure your home is restored to an even better condition. Please take the time to review our company and the many social outlets to see customer testimonials on our work. We look forward to impressing you.
