Forget Translation Headsets Stream straight to participants' headphones!

Linguali Event is the first mobile app for conferences, congresses and events that allows participants to listen to the speaker or interpreter on their smartphone, replacing traditional receivers.

A simple, engaging and innovative Participant Experience

1

The participant installs the Linguali app...

2

connects to the event Wi-Fi...

3

...selects the language and starts listening

MICE participants are equipped with the latest smartphone technologies; they expect **events to be connected and digital**. High quality WiFi is no longer an option! Now is the time to offer a new mobile experience while reducing logistics.

6 reasons to go digital

- 1 Optimal sound quality
- 2 Unlimited Participants (depends on Wi-Fi capacity)
- 3 Up to 12 separate languages and multiple rooms
- 4 Reduce logistics and maintenance
- 5 Simple integration with AV services
- 6 Up to 90% savings on traditional equipment

Compatible with iPhones & Android | On Wi-Fi - works without Internet

Testimonials : what users are saying

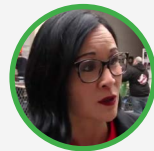

“ At last! No more queuing up for headphones ”

“ The app works as soon as you launch it; there’s nothing to understand. ”

“ I had never heard the translator that clearly! ”

Matthieu Béjot, SNCF Réseau
 “ All you have to do is download an app and connect to wifi; there’s nothing to do, that’s what’s simple ”

Phuong-Ly Ngo Patron, Microsoft France
 “ We chose Linguali to provide our users with a simple and innovative solution ”

Linguali also offers an **ultra-lightweight solution** for events for up to 120 participants and 1 language pair

Silent meeting : improve the acoustic comfort of your exhibitions with Linguali

Trade Show Conferences can cause a great deal of interference and disturbance to participants. With Linguali Event visitors can listen to the speaker on their smartphone providing an enhanced experience, a clearer message and less hassle..
