Dear Dr Davis and School Board Members,

We the Parents, We the People, We the taxpayers, We the ones that pay your salary Dr. Davis, We the voters that put you the school board in office are making one final request that you lift the mask mandate.

We also request that you stop coercing our children to get vaccinated. We the parents are at the point that you can stop acting like third graders that don't get their way and protest against their parents by pitching

tantrums. We feel like it is time that you understand that just like parents disciplining our children, that there will be dire consequences for your actions. There will be no get backs no threats, we will remove you

from your superintendent job, and your elected positions. It might not be this year but next year is coming fast. We don't care what the CDC says, we don't care what DHEC says, we don't care what your president

says. Remove the mask. When your budget comes up short next year of over 100 million dollars remember we the taxpayers, we the parents, we your employers will not vote to give you any more bonds or funding.

You as board members should be ashamed of letting Dr. Davis, Dr. Holmes, Mrs. Mckie, and Mr. Manning ruin your reputations as God fearing people and leaders of this district. Change your ways get rid of CRT, SRL, Diversity division

and start teaching reading writing and arithmetic. History repeats itself so start teaching real history, not propaganda. You wonder why you have fights in schools is because you are teaching hate, at board meetings

amongst yourselves and the parents you serve. A Good Leader leads by showing their followers how to lead. We The People, We the Parents, We the Taxpayers, We the voters. Have spoken.

Dr. Davis and Board Members remove mask Mandates now this second

Thank You for your time and as usual I will be forwarding this to AG Wilson, Governor McMaster.

Gary Ginn

Good Morning!! Dr. Davis and School Board members!!!

I hope you all had a great weekend out and about. Dr. Davis you should be proud of all the fanfare that your due diligence is getting you in the way of Diversity, CRT, SEL. and all of the other letters of the alphabet that we might use to describe the same thing. Judy Gadson has asked us to back off of the mask and the CRT, SEL, and Diversity, Social Justice remarks to reroute us to the problem of violence that has been accelerating in schools. We are not the ones promoting violence as of all of our speeches and disagreements have been peaceful. We believe that your actions as school board members not getting along with each other teaching racism (social Justice, equity, CRT, SEL) are the main reason you have fights in schools, kids bringing guns, knives and all of the above. When I was in school boys brought knives to school to sharpen girls pencils. Boys and girls brought shotguns and riffles in there pickup truck windows because they were hunting for food either before they got to school or when they left. I do not condone this now because I recognize this wont work because of all the hatred taught in the world today. Mostly in our schools and on the news. I refuse let my son even watch the news. I was raised during the time when the school were being desegregated. Sure we had some violence but no where near the violence today. We were not taught to look at a man for his color of skin or who his great grandfather might or might have been. Bad men wore facial covering to cover up their identity. We are all taught to be afraid of people that wear mask. Jesse James, Al Capone, just to name a few. That will never change. You can't change the past but you can redo it. Keep on and you will accomplish your goal. You will not like the consequences any more than 99 % of our forefathers did. Dr. Baron, would you be willing to sit down with me and another and lets talk about how we as human beings can make this better and change the road we traveling on.

Dear Superintendent Davis,

Hope you are doing well!!! We enjoyed seeing all of your colleges Facebook pages today from the Premier 100 event yesterday afternoon from 5:30 -7:30 PM. I see that this was a R2 sponsored event.

District 2 policy states that all events, schools, children, visitors, teachers, administrators, must wear face coverings that cover their mouth and nose. In a tweet from B Jackson, retweet from Baron R. Davis we see a picture of the event with not one mask, and a picture of you and B. Jackson standing close enough that it appears your coat sleeves are touching. Dr. Davis this is a direct violation of your policies. You continue to be above every child and parent that you serve. Dr. Davis you need to either abide by your own rules or rescind them. King Charles of England put a tax on the new colonies, and still tried to import tea into the colonies. It was then called the Charleston tea party. We then had a group that called a meeting to write the Declaration of Independence. In that Declaration it said that we would over throw him because he was a tyrant. Dr. Davis you are a tyrant and you will be dealt with maybe not today but in the near future. Mrs. Agostini (Your employer) ask you to render the names and titles of your Superintendents Health Board. We the people are asking one more time for that list. If you do not answer to the board then you are guilty of insubordination which in your contract you can be fired and will not get your 18 months of severance pay. You and your employee have threaded a thin line already with allowing the molesting of a 6 year old girl. We will not hold you accountable for that because I believe we should leave that up to your and our maker. I repeat "whosever does to a child has done it to me" School Board members remember elections are next year and coming soon. You need to stand up and start righting the wrongs of the man you hired to be the Superintendent of our school district. We the parents We the people, We the taxpayers, We the Stake Holders. By the way the reason we walked out on the CRT, SEL presentation is because we were sick to our stomachs hearing from the father of the little girl

Molested by your employee. I just wanted to puke. I also request that you restore the original version of the board meeting. You have committed a crime by changing the taping of a public meeting. Fraud. Every parent of R2 should know what happened on your watch. This is the reason we cannot and will not let you make decisions of any kind for our children.

Mrs. Agostini it has been brought to my attention that Dr. Davis has answered an email from a fellow parent that basically states that his advisers from the Superintendents Health Council have made a decision and it is their belief that mask should stay in place through the holidays and flu season. I would ask Dr. Davis for a list of his Advisers or we will FOI the list. His advisers are not parents or stakeholders. Let's make it clear that the numbers on boundaries set forth for removal of mask in school district 2 have been met. Would you add to the agenda on Tuesday November 16, 2021 a call for vote on the School Board in public session to remove mask? Would you also call for a vote to remove this responsibility from Dr. Davis for implementation of mask and put it back on the school board as a for vote action? Dr. Davis has shown his incompetence in this arena. The Doctor title does not apply to medical doctor.

We have spoken to legislators and they have said emphatically that they will withhold funding from any districts that have or had mask mandates. It is your duty as a board member who employs Dr. Davis to not let him make decisions that are detrimental to the districts general welfare. Educationally, funding wise, or for the general public welfare. Lose State funding and there will be no R2. Board members will be held accountable. We the Parents, We the Taxpayers, We the People, We the voters, We the Stakeholders, We the Shareholder.

As always I will be Adding AG Wilson and Governor McMaster to the email list.

Dear Mr. Ginn and Dr. Davis:

It is my hope that Richland TWO will remove the mask mandate and go back to strongly recommending masks based on the decreasing COVID numbers in Richland County and in our district. If that is not possible, I would like policy ADD added to the Tuesday, November 16, 2021 agenda for board discussion. Thank you.

Dr. Scott would you stand with Mrs. McFadden in her request for special meeting to remove mask from our school district? Would you be the voice of reason to Dr. Davis? We could just get the

legislature to break up school district 2 into 5 or six districts and remove the standing board to replace it with 5 or 6 new board members. This would eliminate the single district voting block to have

equal representation from all areas of R2. Dr. Scott you have seniority here to do what needs to be done. Dr. Holmes needs to get educated on Roberts rules of order. Dr. Davis controls the board not you

and the other board members. The board is his employer. This is like the tail wagging the dog. The graduation rate for this year and next at only 39% is inexcusable. That does not make a Premiere district.

I have copied all on this email!! No disrespect to anyone just want to be transparent to all. This email is all Gary Ginn's opinion and nobody else's. I am a Parent, Part of We the People, and I am a taxpayer

in R2.

Good morning,

How are you? Thank you for sharing your feedback and for being an advocate for your children.

As a board, we are scheduled to look at the numbers and review our mask mandate. However, we will take into account feedback from parents, faculty and staff, and our community stakeholders.

Thank you for understanding. I appreciate your thoughtfulness and support.

Educationally,

Dr. Scott
