

Convoy to Calais

10am Saturday 18 June Central London

Now more than ever we need a huge response to the refugee crisis to counter the racist rhetoric across Europe trying to demonise and disenfranchise victims of war, oppression and poverty.

Some of the largest mass movements in Britain have joined together with major trade unions to show solidarity.

If you can give aid of any sort, material or financial, for our Convoy to Calais please do. Better still come on the Convoy yourself. Any vehicle will do: lorry, bus, coach, van, minibus, car, taxi, motorbike or scooter!

This is practical aid but it is also a huge moving protest at the way governments across the continent are failing refugees.

This is the time to come together and say: stop the scapegoating, solidarity with the refugees.

Refugees are welcome here
