

CUSTOMISATION
**STAND OUT FROM
THE CROWD**

JUST IMAGINE...

...the incredible concepts you could make by combining beautifully printed or embossed matching products. And how, by doing so, you could elevate your brand, create impressive experiences and stand out over your competition.

Our one-stop-shop customisation service makes it simple and cost-effective to realise your vision. We offer a market-leading selection of top-quality printing and embossing services, as well as an extensive choice of eco-conscious materials, formats and colours. The possibilities are endless.

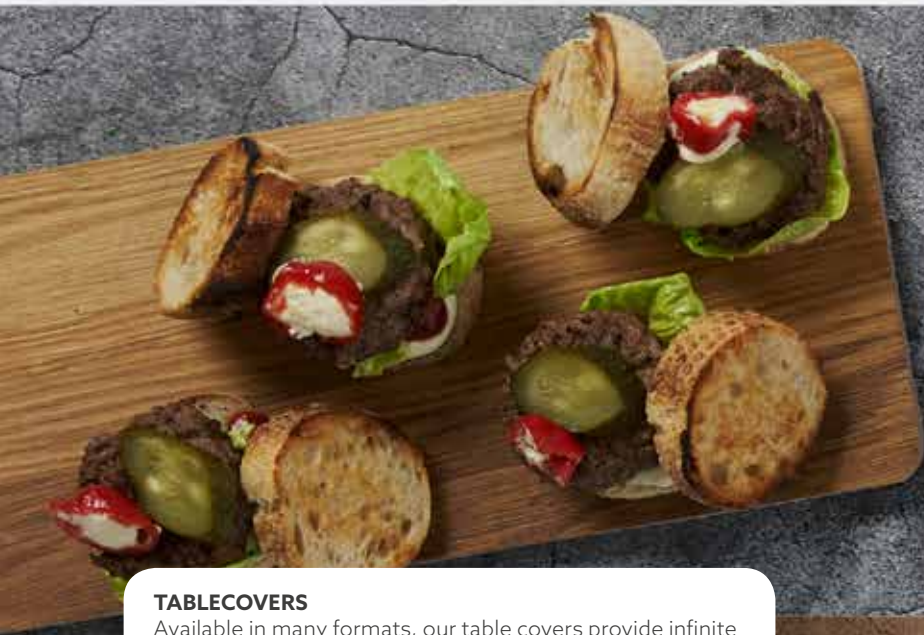

THINK OUTSIDE THE NAPKIN

In today's globalised world, people want individuality above all - whether it's choosing clothes or where to eat. So, crafting a personalised theme of matching items can greatly help you to win, and keep, their business.

We make this easy to achieve, whatever your needs: we offer a full range of products designed to work with each other - and the ease and security of using a single supplier. That way, you can bring your brand to life in imaginative ways that go far beyond a logo on a napkin.

TABLECOVERS

Available in many formats, our table covers provide infinite ways to bring your concept to life. Simply choose a colour and logo - or go further by adding your own design.

NAPKINS

Perfect for getting your message across, our wide range of table napkins and cocktail napkins provide a perfect canvas for grabbing guests' attention.

TETE A TETE

When you don't want to cover the whole table, tête-à-têtes only take moments to set yet completely transform the mood. They also subtly link guests.

PLACEMATS

During the wait for food to arrive, placemats never fail to be noticed. Even better, they can be used to occupy children, for a more relaxed mood all-round.

CANDLE HOLDERS

Candles create cosiness and when used with personalised candle holders – literally – illuminate your brand. They're ideal if you want to make a winning impression.

COASTERS

A neat solution that allows you to add to the experience of every drink you serve. For instance, with personal messages, cocktail recipes or an eye-catching printed logo.

BRING YOUR CREATIVITY TO THE TABLE

The printing and embossing options we offer suit different visions and budgets. However, they all share key characteristics: precision, colour accuracy and a high-quality look. Consider combining them in your concept to open a world of creative opportunities.

SINGLE COLOUR PRINT

The simplest most economical option, single-colour printing works best when you choose a material colour and a product that complement each other – and your brand.

MULTI COLOUR PRINTS

We can print up to 5 colours on your napkins. Our in-house experts, who have many years' experience, can help you choose the optimal combination.

EMBOSSING

Produces a three-dimensional tactile relief that your guests can feel, as well as see. Embossing has a particularly sophisticated and discreet look.

HOT FOIL

A metallic or pigmented foil is printed via a heated die. This creates very premium-looking results.

DELIVER HIGH QUALITY EXPERIENCES

Different materials suit different moods, concepts and budgets. As specialists in this area, we recognise this and offer a full selection of top-quality, eco-conscious solutions. Many are unique and offer a textile-like look and feel. And most combine the freedom of single-use with excellent functionality and consistent, rich colours.

BUILDING UP A BRAND

Tissue and Dunisoft® napkins, tissue coasters, paper placemats, Dunicel® tête-à-têtes.

Sint-Truiden is a picturesque city in Belgium. The mayor and council developed a new marketing plan to build the Sint-Truiden brand. This led to the creation of a new logo and brand identity.

As part of the marketing strategy, they created a concept based on the new identity comprising branded napkins and other table setting products from Duni. These are provided to visitors and locals at public events, as well as receptions and meetings.

“Duni is a brand that stands for premium quality. They provided very good and constructive support when developing the range. It promotes our “St Truiden” brand very well.

ABSOLUT VODKA

SHOWING PRIDE WITH COLOURS

For many years, the Absolut brand has actively supported the LGBT community. Amongst many other examples, they collaborated with Gilbert Baker, the creator of the rainbow flag to create the limited-edition colours bottle.

Absolut have also commissioned branded napkins from Duni, which combine the six colours of the rainbow flag in each box.

These enable anyone who uses them to show solidarity with the LGBT community.
