Being parents, we know how difficult and stressful it can be to travel with kids. What to take, what not to take? Not having enough space and allowance to bring along the pram, the cot, the high chair, really, everything we are so used to having at home and want to take along to make life easy for everybody on the holiday!!

# BABY FOR HIRE

Of course one cannot take everything so how easy would it be just to rent it all at the destination? Having moved to Dubai we noticed the lack of this service every time friends with little children would come to visit, so that gave us the idea to start Dubai Hire4Baby.
