

STOP THE WAR COALITION

Emergency Resolution – Stop the Attacks on the Palestinians

- This branch/CLP/trade union branch

Notes:

- Attacks on the Palestinian people are escalating.

- In the last year more than 250 Palestinians in the Gaza strip have been killed and 29,000 wounded in attacks by the Israeli Defence forces.
- Illegal settlements in the occupied territories have accelerated leading to the expulsion of hundreds more families from their homes.
- Donald Trump has scrapped US support for the UN backed refugee programme, recognised Jerusalem as Israel's Capital and Israel's illegal annexation of the Golan Heights.
- Jeremy Hunt has recently announced Britain will oppose UN Human Rights resolutions criticising Israeli aggression.

Believes:

- International solidarity with the Palestinian people is more important than ever.
- The British government should be pressuring Israel to end illegal settlements and stop the attacks on Gaza and stop Israeli human rights violations.
- Britain should stop selling arms to Israel while it continues its assault on the Palestinians.

Resolves:

- To support the Exist, Resist, Return demonstration on Saturday 11 May in London.
- To send the biggest possible delegation to the demonstration.
- To publicise and promote the demonstration locally.
