Congratulations to Barack Obama for 8 years the USA presidential mandate

Saturday, January 7, 2017

Good day for the esteemed President Barack Hussein Obama, a member of the Democratic Party of the USA, as well as the 44th President of the United States of America.

Dear President Obama, I wish You a successful completion of Your mandate the President of the United States, the USA, and I believe that Your eight years long experience was also a big step in Your life and in Your family, and also a great inspiration to many USA citizens.

I wish You much luck and success to continue, in the interest of USA policy, but also for the purpose of International interest.

Eight years represent the USA is a big step environment wins, and certainly You have many vistas for which You can be proud of.

Great pride for the position of the first black USA president, and thus prove that the USA is the country with the state and the importance of freedom.

Being the first African-American president of the United States as a citizen, is a really big inspiration for a lot of white and black USA citizens, and Your success and charm were able to successfully enroll in USA history, peace and open mind for many politicians in foreign countries worldwide. Your country can be proud of, and Your family can therefore have great honor in the period up to many tens or even hundreds of years in the future because such an act will be taught in textbooks USA universities and basic intelligence USA history.

For the period of Your two mandates the USA president, one of Your big victory was a step in the stabilization of the USA economy after the global financial crisis in 2008, and securing new growth of civilization. I also wanted to support You, and Your nation, as well as other countries around the world, and together with merchants and banks, I could provide immediate stabilization and rapid increase in the world economy. Today we try always, and I can also be proud that my ability to achieve a new step in the full stabilization for all USA Banks and retailers, ensuring a return to full strength. That is why I expect that Mr. Donald Trump would be willing to support our collaboration and thus provide opportunity for all countries to use such claims that are waiting under blockade for eight years.

In recent years, the end of fighting in Iraq and Afghanistan, the USA act to help stabilizing the growth of peaceful states and improve many important factors for future generations. It's also a big win for You and Your mandate of the President of the United States, as well as for the previous president, George Washington Bush, but above all a great proof of the power of liberty to every USA citizen.

Current status, fighting in Syria and also in Iraq, a new enemy named ISIS, and the steps the USA again in order to promote the elimination of terrorism. This is an important step but which is not based on sufficient skills instant win, and therefore I also regret that the United States have rejected encourage my freedom

which would be a joint collaboration meant also ensure immediate removal of all terrorist organizations in Libya, Syria, Iraq, Yemen, in Afghanistan, but also in many other countries threatened by terrorism, but especially in Europe, where it is because of all the most important in the interests of global security, and above all to support the legitimate rights of all countries. For the period of Your mandate to the USA president supported You and disposal of Muammar Kadafi, his family members, and the overthrow of the stability of the legal regime of Libya, but to eliminate the terrorist movement in Europe You have refused to carry out.

For the entire period of such activities, I could only watch as Your government has stolen my claims and information for many forms of security technologies, but You either do not use them to ensure safety. Mere theft, without any principles and efforts for peace. Even with the murders of people who tried to defend the freedom of national security and world peace.

Good move Your mandate is also opposition to North Korea, while the threats from North Korea, while acts entailing use of nuclear weapons, and violations of the principles and UN resolutions. Were You able to show that the USA is steadily maintained as a country that is always willing to fight against the enemy, and it is for You and for Your country really proud. Unfortunately, You can not but support the actions of the same security obligations in the event of Your terrorist friendly lines in foreign policy, and meanly so here in Neo Fascist Terrorist Europe, and it means that You are supporting the growth of a true regime of terrorism which are monopolistically, spy and murderously for several years, fascist grow in order exterminate the whole world. It is good that each country's government in the world, and Your future political generations assess whether North Korea will be much more legitimate subject of political gaze more than the USA government, and that means that North Korea Democratic Republic owns all and full rights for use nuclear weapons against You. Support for Europe never one can.

Should You think hard, about what political responsibility means and how it is obliged to react, because in the relationship between us, so You too decide on the existence of the entire future of mankind. You've never one time come to me, and You never offer opportunity together to discuss global security strategy and prevention of threats First Global Wars, although there is a situation when really I am a legal form the main decision-makers about the fact, and it means that You had the entire a world destined to extinction and extinction, while You have the entire eight years left open the possibility of terrorist regime that constantly and freely disseminated on hazards, global organization and fascism expanding for destroying the world because Your regime full disrespect all International Legal obligations, function as a Anarchy intelligence.

Therefore, I also expect that Your successor, Mr. Donald Trump, the new USA president will therefore be more alkaline level of International political rights and obligations, and therefore he will own respect for his predecessor, and so Mr. Donald Trump promote start outstanding steps for the period of Your government. It is of major importance for the whole world, and also the duty to stop the expansion of Anarchy at USA policy.

It is a success for You, however, that Your country has also demonstrated that he is able to appreciate the lives of American citizens and the justice of their own state. During the period losing USA against the Republic of Cuba, at a global

resolution vote states UNGA, the USA showed that it is not in the national interests, violate global democracy and create a fascist opposition to all states of the world, the diplomatic point of view is that the USA has demonstrated the true value of such a measure as a victory USA together with the Republic of Cuba. Nude victory which was also confirmed even in lifting the embargo on Vietnam and thus the foundation of a better force in International relations. The Republic of Cuba is also a stand for peace, even at the state level slightly dictatorial manner, but even so, the fundamentals of the real form an intelligent policy and thus mainly develop real intelligence level of state with full responsibility and pride. The Republic of Cuba deserve freedom, but as well as Vietnam, which is why the USA victory, that such options and rights You support, it is because even the pride of Your mandate, and the name of Your state.

As president of the United States led're intelligent life on the level of the main interests of Your country, but as well on a range of global characteristics of politics and civilization. In many cases discriminatory manner. Support for the liberation of political prisoners in Burma, support for peace and stabilization nation also apply alkalinity of human rights. This means that You are able to show the world the legitimate interests and objectives of the USA Justice Department, but also that the first black president of the USA is not any disappointment for the world's Conservative Party, because the development of Your policy is actually based on the development of peaceful interests at the level of the whole world because support for prisoners in Burma is proof of the willingness of racial friendships.

Racial friendships, or Your political strategies for influencing public company, it is certainly nice that You have supported European states and their own interests for the acceptance of refugees, but it is as well true that You are so full discriminated against my policy interests, the interests of my state interests that are in relation to the rules and principles of International politics again more important than the present existence of the European states, and for it too mean a step for freedom.

Refugees in Europe must live in refugees camps, easy eat, not quality of emergence, without higienic abilities, without quality of textile, in strong izolation and dissinformation, the same as a much than 2 000 000 000 people worldwide who can confirm their citizenship of my country, but therefore they are is immediatelly blocked.

Sanctions against Russia again only proof that Your interests were again in order to support terrorist forces in Europe, and hence also achieve violation of all International rules and thereby harm the rights, safety and stability of each state.

Europe is rapidly much more hard criminal and terrorist entity, which terrorism against 180 governments, states and civilizations worldwide, after censured genocide of 340 000 000 people worldwide, as a today threat for establish First Global War and liquidation of 7 000 000 000 people.

Unfortunately, I am sorry that many of Your acts were only for the purpose of falsehood and media strategies, but I have been really publicly acknowledge and also due to USA support for shooting down airplanes, killings of innocent civilians and acts that mean really hard in violation of International obligations and rights

all countries around the world. Each offender is responsible for a crime that I wanted to award punishment for which would have everyone in the world really remember that such crimes are not good Venturing.

For legal interests of my party did not help You too much, and You prefer to support terrorist Europe. Finally the excuse that Your interest is to promote the protection only, and not the activity of International rights and responsibilities, You also re-distribute Your strategy of disinformation and fraud at International level, mainly in order to damage the value of the rights and legal rights of my country, the same as full support for Jeremiah monopol act of occupation and neocolonisation of my country. You did not materialize duties of a political nature, and most of Your activities was a falsehood. Above all, for this reason, today's world of direct development in order to create the First Global War in the history of mankind, it means the risk of extinction over 7 000 000 000 people. Sure I wanted to hear Your response to this fact, and I really want to know why is it important for You to support a body of International terrorism with worse criminal value than Osama bin Laden or Hitler against the United States. In Your country, it means a bankruptcy and disaster, as well as the threat of extinction policy.

According Your mandate of president USA, than government of USA really losse on legitimacy in International character.

Your country is in firm contact with the European policy that actually carried out and confirmed crimes at worst deeds in the history of mankind, and indeed even genocide in the number of 340 000 000 people. That value is now six times surpassing the Second World War, and it is therefore necessary that You get You immediately realize that such actions never does not happen. You should be responsible for such a threat of the First Global War, and indeed because You are really one of the first factors why such a threat arises.

This means that for eight years, Your mandate was just the greatest act of betrayal humanity, so You do also supported.

I certainly Thank You for the many musical texts and the people who work for You in order me to inform, but the first interest I want to say that I do not have time to check as much information media, because I need to communicate only direct dialing and legal documentation, and I want first of all to say that Your work was often open only for hard damage my name and the actual discrimination against my people, often with threats, or society dismanipulation. Nobody fully media did not support the initiative of the fight against European terrorism, and the application of International political rights between states. Media as news networks are blocked and censored entirely, and thus created many conflicts that are truly global.

Also I do not understand why Your country supports the use of music and film industries for the purpose of sharing information, but there is always a confirmation that the people around me will be hard to extend acts of disinformation and therefore Your messages are completely worthless! If You want to use the media, then the chief duty use normal media session thereby ensuring the ability of the company to develop its own natural reactions that signify growth virtually instantaneous response against Global terrorism and

collective state action for immediate stabilization of world politics.

Nothing like You did not use hard've lost many important values around the world.

You havent fear now, but all of future, I am most biggest man in time of mankind and I can rapidly outstrip all powers of God, his who create the human world.

As president of the United States You've made many important steps, but You're always undermining their value when re-assisted transactions and compliance with European governments countries. You did not respect political interests, You are supported by the movement activism of International terrorism, and in the same way You've actually helped the rise of fascism Europe-wide.

I will be happy if we can jointly organize our joint meeting and thus jointly agree on the following solutions. It is important to respect those political principles and responsibilities, but mostly it is a major so was fulfilled during the period of Your presidential function, but as well to the opportunities further in performance between political parties and the Congress states.

It is indeed the responsibility to recognize that as the first black man to the office of President of the United States, You've really managed to achieve great success, but in the same format it is necessary to observe and respect the principles directing the goal line nations in the world, and especially the fact that because of Your thwarted responsibility is dying more than 340 000 000 children.

Therefore, I certainly wish the best of luck in Your other days of USA policy, if Your interest to ensure the growth of full stability, justice and thus eliminate terrorism from the structure of Your Government. It's an important step, and designed for global use, the rights of all States and relevant principles of world peace.

What is certain is that I like to meet You personally, it is good to organize our meetings, because I give Your suggestion for an open approach to my country in order to increase diplomatic and friendly relations between our countries.
