Oral Winstrol possesses a half-life of 9 hours, while injectable Winstrol has a half-life of 24 hours. Although available in both forms, my opt to use oral Winstrol. The main reason is because of the pain associated with injectable Winstrol. This form can be so painful that users (if injected in the glutes) are not able to sit down for several ...

Winstrol Oral pills are usually taken twice a day (it has a 9-hour half-life) and the dosage varies from 40-80mg depending on your tolerance to the compound, your goals and your experience with AAS. A typical Winstrol cycle should not extend more than 6-weeks and you should not use any other C17-aa steroids during the cycle.
