

HABI

LIFESTYLE

CORPORATE & MADE TO ORDER PORTFOLIO

Walk Habi. Live Happy.

What does it mean to walk habi and live happy? Our lives are defined by our choices -- whether it be in what we believe in, what we value, and even in what we wear. And with our choices come the responsibility. Habi is all about supporting a lifestyle that is responsible, conscious, and positive. To live happy is to choose well, look beyond what is out there, do more than what is expected, and think beyond ourselves. At Habi, we value community-building, social development, and responsible fashion.

How?

With partners from all over the Philippines, our enterprise seeks to showcase the best of what our country can offer through the ingenuity of our community partners. From the beautiful indigenous weaves of Kiangnan and Lamitan, the intricate woven beadwork of Batasan, to the wonderful hands behind the upcycled textile weaving and sewing of Payatas, Habi showcases a wide array of skills, talent and beauty; and seeks to offer you better lifestyle choices that provide positive impact to the lives of these artisans and the environment.

Why?

Habi believes in a better future where opportunities are equal to anyone and where people from underprivileged communities are given avenues to fulfill their potential - whether through livelihood, artistry, women empowerment, and education.
