

Ryoshi left, Shytoshi messed up, and Shiba Inu fell apart

I was lured into the Shiba Inu project, thinking I'd hit the jackpot. Everywhere I looked, there were promises of revolutionizing the crypto space. But damn, was I played. The deeper I got, the murkier the waters became, and I realized I was swimming with sharks.

Ryoshi, the so-called visionary, started this circus. At first, he seemed like the messiah of crypto, but soon enough, his mask slipped. Stories of his dodgy dealings started to spread like wildfire. Whispers of him using fake

identities and being the puppet master behind other shady projects made me question everything. I felt like a fool for buying into his charade.

Then, as if to add insult to injury, Shytoshi took the reins. I hoped for a fresh start, but it was just a continuation of the same old song and dance. He boasted about innovations, especially the much-hyped Shibarium. But after endless waiting, what did we get? A pathetic copycat of another project. All that hype, just for a second-rate imitation.

And don't even get me started on the Shiba Inu moderators. I saw it with my

damn those shib mods are larping non stop, literally every day = new launch by ragnar, xander etc.

They are using bone and other deployers from which they got paid in the past.

Seems like salary for being Shib mod ain't enough to make it. Need more m0ney

The pinnacle of this disaster was the team's insatiable greed. They became money-hungry leeches, sucking the life out of us, the genuine believers. They didn't give a damn about the community or innovation; their eyes were only on the prize — our hard-earned money. We were just cash cows to them, waiting to be milked dry.

The Shiba Inu debacle was a brutal lesson in trust and betrayal. The crypto world is a battlefield, and Shiba Inu was the landmine I stepped on. They promised the stars but left us in the dirt. If there's one thing I've learned, it's to trust no one and question everything in this ruthless crypto game.

Ryoshi left, Shytoshi messed up, and Shiba Inu fell apart. Yet, out of this mess, Shiba Inu Classic rises, a fresh start built on lessons learned.

I just hope others open their eyes and see the lies before they're swallowed whole. And as we move forward, may we find genuine innovation and community spirit in Shiba Inu Classic.
