verdad va a depender de muchos factores. Por ejemplo, una dieta baja en carbohidratos es un buen enfoque para los que estan obesos, para los que sufren de resistencia a la insulina y para las personas sedentarias. Pero esto no quiere decir que es la mejor dieta para atletas, deportistas y amantes del entrenamiento intenso. Si eres una persona activa y con un cuerpo delgado, tu consumo de carbohidratos puede ser mayor ya que las personas relativamente delgadas y que hacen ejercicio de forma constante tienen una mejora asimilacion o reparticion de los nutrientes que ingieren con la dieta.
