*David
Serati*

David Serati est né en 1995 à Liège. Après des études d'architecture à Liège et à Milan, il vagabonde depuis 2018 entre Anvers et Bruxelles qu'il définit comme ses lieux de vie et d'expression. Après diverses expériences à la confluence entre les métiers de la communication et de l'architecture, David crée son studio d'illustration en 2020. Son regard d'architecte l'influence au quotidien dans sa pratique.

Perspective, composition, jeux de lumière et couleurs vives sont au centre de la recherche graphique de David. Il désire, à travers ses illustrations, dévoiler la beauté, parfois imperceptible, de certains lieux réels ou imaginaires. Le processus de son travail consiste en une abstraction de la réalité, qu'il combine de temps à autre avec l'ajout d'éléments plutôt naïfs. Il définit sa production comme "une fenêtre vers un monde plus coloré". Influencé par le Bauhaus, Memphis, mais aussi par tout contexte urbanisé, David se prête attentif à chaque détail lorsqu'il explore les lieux qui l'entourent. Ce qui le fait vibrer le plus, c'est probablement l'architecture moderniste.

David Serati was born in 1995 in Liege. He studied architecture in Liege and Milan. Since 2018 he has been living between Antwerp and Brussels, two cities he defines as his places of life and expression. After various experiences where communication and architecture meet, David launched his illustration studio in 2020. His architectural sensibility influences his practice.

Perspectives, composition, lighting and vivid colors make up the core of David's graphic design. Through his illustrations, he aims to unveil the sometimes hidden beauty of places, be they real or imaginary. In his pieces, he highlights distinctive features to offer a new take on reality – an outlook he sometimes embellishes with naive elements. He describes his work as "a window to a more colorful world". David's influences are the Bauhaus movement and the Memphis Group. Urban contexts are also another source of inspiration from him, so much so that he pays attention to every details when exploring. Modernist architecture is probably what thrills him the most.

silkscreen print / 29,7x42cm
2020 / edition of 10 to 14 pieces
€45 pp

pigment ink fine art certified print / 40x50cm
2020 / edition of 15 pieces
