Archbishop Law To Celebrate St. Francis de Sales Jubilee 125 Anniversary Mass On Sunday

Archbishop Bernard F. Law will celebrate the celebrated Jubilee Mass commemorating the 125th

anniversary of St. Francis de Sales Parish, Charlestown, on Sunday, September 30, at 11:30 a.m. as part of the parish's jubilee year activities.

Residents of Charlestown, St. Francis de Sales parishioners, former parishioners, and friends are cordially invited to participate in this historic Mass, and to attend the special homecoming immediately following in Bishop Lawton Hall.

In the past six months, parishioners, guild members, members of the

Holy Name Society, faculty and priests, under the guidance of Reverend Daniel Mahoney, have worked together to make this jubilee year a celebration.

Eleven sub-committees were formed earlier in the year to assure a huge success. They included committees on liturgy, music, history, homecoming, invitations, photography, jubilee history book, publicity, tickets, transportation and banquet. Mrs. Essie Martin and Augustus Charbonnier

were named General Co-Chairpersons. Co-chairpersons were also named for each committee, with over 150 parishioners and friends named to the committees.

One of the programs commemorating Jubilee 125 will be a Parish History Book. Also, the Homecoming Committee has planned a special Jubilee Homecoming for well over 1,000 people, which will take place immediately following the September 30 Mass in Bishop Lawton Hall, located beneath the Church. Refreshments will be served.

The Liturgy of the Mass was planned by the faculty,

priests and Father Daniel Mahoney, pastor of St. Francis de Sales Parish. Music, lyrics and photography will all play a part in the Mass. The other committees have worked to plan a celebration banquet.

The banquet will take place at Caruso's Diplomat on Route 1 in Saugus on October 12. A dinner of prime rib will be served, with music provided by Dick McManus and the Irish Revolution. Metropolitan

Words cannot express my gratitude . . .

The people of Charlestown have accorded me a very meaningful victory in last week's primary.

I shall be forever grateful to the many persons who worked in my campaign and the countless "Townies" who voted for me.

I shall continue to strive to give you the representation you deserve on Beacon Hill.

From the bottom of a grateful heart, thank you.

At Brimmer & May School

Rose Fitzgerald of Charlestown was among the 195 students attending opening day, September 11, at the Brimmer and May School in Chestnut Hill.

Brimmer and May, now in its 104th year, is the oldest independent school in the Greater Boston area.

The school serves students in Nursery-Kindergarten through Grade 12. The Lower School, through Grade 4, is coeducational. The Middle and Upper Schools, Grades 7 through 12, offer an all-girls college preparatory program.

Rose is entering Grade 9 at the school.

The Film Program for Children will be held at the Charlestown Branch Library, 179 Main Street on Tuesday, October 2, 1984 at 10:30 a.m. and 3:30 p.m.

This week's features include "Lentil", the story of Lentil, who can't sing or whistle, but his harmonica playing saves the day; and "The Sand Castle", the story of the magical sand creatures that build a fantastic fort when a storm threatens.

Suggested readings in conjunction with this program include *Lentil* by Robert McCloskey and *I'm the King of the Castle* by Shiegeo Watanabe.

E.D.C. Housing Proposal Review

A variety of options for housing on the Boston Redevelopment Authority (BRA) site at 450 to 480 Main Street will be reviewed on Thursday evening, September 27, 1984 at 7:30 p.m. at the Charlestown Working Theater, 442 Bunker Hill Street.

The Charlestown Economic Development Corporation, a non-profit developer with a community-elected board, is one of several developers planning to submit proposals to the BRA on this parcel.

The Charlestown E.D.C. intends to propose moderate income housing for purchase by young

Charlestown families, and they will outline this proposal on Thursday evening. The architectural design is being done by Ron Alex and Vic Morales of ALM Associates on Newbury Street. The Architects will present preliminary design options and ask for suggestions and critiques from the community.

Members of the com-

munity, particularly those living on the west end on Main Street and adjacent streets, are invited to attend and contribute their ideas to this housing design.

Additional information on this proposed housing is available through the E.D.C. Office at the Kennedy Center, 27 Winthrop Street, telephone 241-8866.

Mishawum Tenants To Meet

Mishawum Area Tenants' Association will hold a meeting to hear area comments and complaints, to hold elections, and in-

form tenants of committee actions on Thursday, September 27, 1984 at 7:00 p.m. at 95 Dunstable Street.

Hoosac Pier Becomes Constitution Plaza

by Marianne Martin

Despite the departure of the Navy from Charlestown, the activities within the Navy Yard and along the waterfront are anything but quiet.

The Hoosac Pier, once a major cargo handler, will become Constitution

Plaza, the home to two commercial buildings for office and retail use.

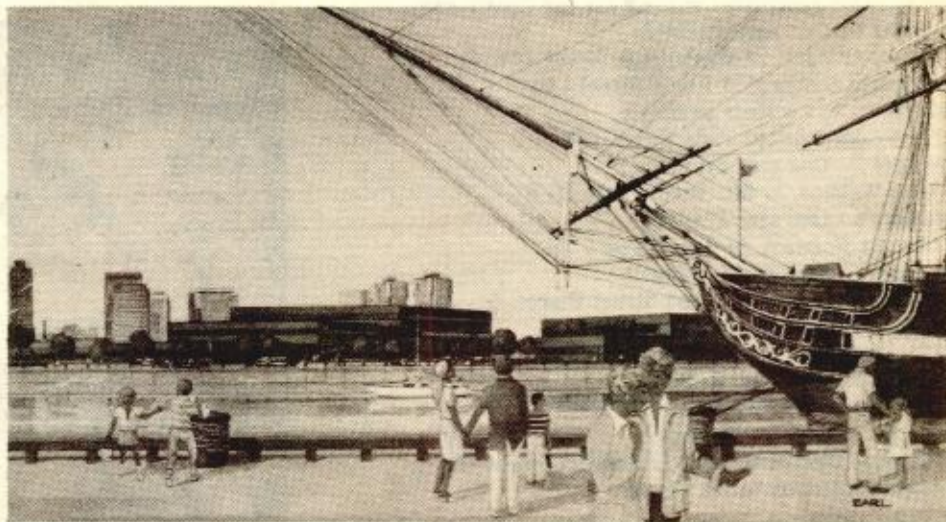

The Massachusetts Port Authority (Massport) owns the Hoosac Pier, which had become a deteriorating piece of property since the decline of the cargo business two decades ago. Under an agreement made

in 1981 between Massport and the Hoosac Pier Company, the pier will once again prosper.

Since the last world war, the pier has been idle. Massport has since reinforced the bulkhead of the pier and repaired the retaining wall before the Hoosac Pier Company began the construction of the two buildings.

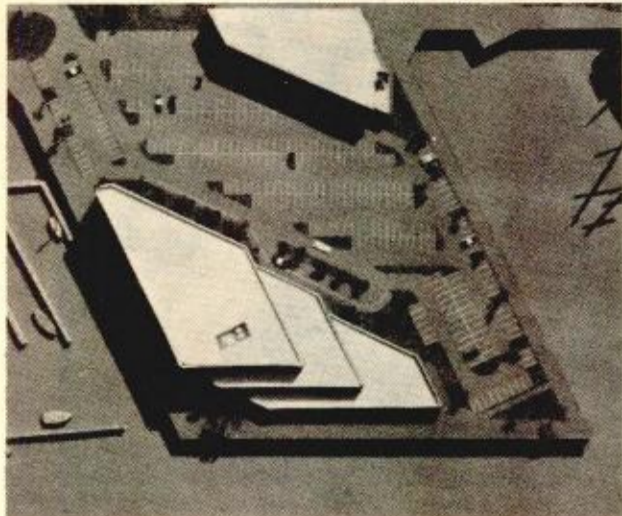

According to Massport official, Anne Meyer, the five acre site will be leased to the developers for 65 years after which the property will revert back to the authority.

The developer of the property, the Hoosac Pier Company, is a joint venture of the O'Connell Development Company, Inc.; Corcoran, Mullins, Jenkins, Inc.; and JDC., Inc. The president is John Drew. The Codman Company, Inc. is the exclusive leasing agent.

AN ARTIST'S VIEW of Constitution Plaza, now under construction on the site formerly known as Hoosac Pier, as seen from the Charlestown Navy Yard at the berth of the U.S.S. Constitution. This site will offer the

benefits of a suburban office park, including numerous landscaped areas and a large pedestrian walking around the entire edge of the Pier, all assembled in an urban setting.

SITE PLAN of Constitution Plaza.

Drew is "enthusiastic" about the two-building complex which was designed by architect George Earl Ross. One reason for his enthusiasm, stated the developer, is the reconstruction of both the Navy Yard and City Square adding to the attractiveness of the area as a whole. Another reason is the location of the pier. Charlestown has all the advantages which are available to downtown Boston, such as access to major highways, Logan Airport, and the transit systems. In addition, Charlestown also provides low real estate taxes and on-site parking, unlike a

downtown Boston business address.

The construction of the two buildings is scheduled to be completed sometime in February 1985 while occupancy will begin in January 1985. In total, there will be 160,000 square feet of office space which will be leased at \$20 a square foot. This is lower than the downtown Boston rate of \$26 and \$32 a square foot.

The first building is three stories high, housing 130,000 square feet of office and retail leased space. The second building is a two story facility with 30,000 square feet with office use on the first floor and a restaurant

on the second.

According to Drew, the Barrett Family who presently manage a number of restaurants in the greater Boston area among them the Edmund Fitzgerald and Shenanigans, will operate a restaurant at Constitution Plaza. States Drew, this will be a "first class destination restaurant", attracting not only business locally but from the surrounding communities.

At the end of the 65 year lease, Massport will either reclaim the land for its own uses, or renew the lease. Either way states Drew, "Massport gains an asset".

Health Care Forum At The Library

Even with health insurance, many of us are feeling the effects of the rising costs of health care. While the proliferation of health care options, in the form of new insurance packages and health maintenance organizations, may lessen medical costs, for some individuals, the question of who finally pays for what is seldom addressed by those who may have the answers. Is there any means to reduce the burden of everyone's medical costs?

Members of the library public will have a chance to address this question when the Charlestown Branch Library presents a National Issues Forum "The Soaring Costs of Health Care" on Saturday, October 13 at 2:00 p.m. The Boston Public Library Central and Branch Libraries are sponsoring "National Issues Forums" in cooperation with the Domestic Policy Association, a privately-funded group dedicated to promoting local concern about national problems.

In April, the Domestic Policy Association will use surveys completed during the Boston Public Library forums to convey public opinion to national policymakers during a nationally-televised conference to be held at the John F. Kennedy Library. For more information about the "National Issues Forum" call or stop by the Charlestown Branch Library, 179 Main Street.

Patrons who participate in the local forums will also have a chance to talk to local policymakers when the Boston Public Library hosts a panel forum on "The Soaring Costs of Health Care" on Thursday, October 25, at 7:00 p.m. in the Rabb Lecture Hall, Boston Public Library. The panelists who will be prepared to answer questions from the audience are: David Calkins, M.D., Harvard University, Division of Health Policy Research and Education; Charles Donahue, Director, Health Planning Council of Greater Boston; Bob Marra, Executive Direc-

tor, Boston Health Plan, Dept. of Health and Hospitals; Karen Quigley, Director of Health Care Planning and Services, Blue Cross/Blue Shield; Representative Richard A. Voke, Chairman, State House Committee on Health Care; and a spokesperson from Harvard Community Health Plan.

Saint Mary's Grammar School To Hold Reunion

ST. MARY'S GRAMMAR SCHOOL1951

The building now is empty. Gone are the desks,

books, pointer sticks, chalk boards and erasers, cloak rooms and religious statues - all generously donated to other parochial schools and churches throughout the Archdiocese. It's a lonely sight now to see that once-proud building standing there amidst the rubble that once was a large garage waiting for its rebirth into elderly housing.

But as one strolls by, images of busy, happier days dance through one's head. He closes his eyes and can almost hear the pattering of feet running down Winthrop Street and into the school yard; erasers being clapped; and the bell ringing to begin another day. What's this? Did he really hear the sixth grade class singing so beautifully!?

He opens his eyes fast. "Oh, I've heard the expression 'walls have ears' but this is carrying it too far," he thought to himself. Walking up through the Training Field and glancing back toward the Common Street School, now condos, and over toward the Parish Hall, faces from long ago flash before him and he wonders, "Where are they today? Wouldn't it be great to see them all

again!"

Well, he and you will get that chance in the spring of 1985. The graduating class of 1960 is planning a 25th reunion and all classes who attended St. Mary's between 1950 and 1960 are invited to come and celebrate with them. The committee has been receiving five

responses per day since first they asked for names and addresses. The list is growing - don't be left out! Send us your name, address and year of graduation to St. Mary's Reunion, P.O. Box 1776, Charlestown, Mass. 02129. We will send you all the details as soon as final plans have been made.

In addition to the five members elected to the E.D.C., seven members will be appointed to serve on the Board. The categories will be: two from The Kennedy Center Board, three elected officials or their staff and two from local organizations or businesses with development interests.

WHICH IS THE DACROWN (day-crown)? A cast ceramic covering

You cannot tell because the new crown is Dacrown, short for Dental Associates Crown. The difference is that the ceramic material is cast and there is no metal under the restoration

ADVANTAGES:

- Stronger than other porcelain crowns.
- Coloring and form closest to natural teeth.
- Fits better.
- No metal at edges.
- Less sensitivity to hot and cold.

DISADVANTAGES: NONE

- The process requires special laboratory procedures
- The crown is made in our own laboratory.
- Prosthodontists (specialists in restorative dentistry) prepare, fit and color these crowns at Dental Associates.

City Offers Aid To First Time Homebuyers

Mayor Raymond L. Flynn has announced a new program that will help some 40 Boston families own their own homes. Called the "First-Time Homebuyer Program", this new initiative will provide below-market rate loans to moderate income residents who wish to purchase and renovate properties located within the City. In commenting on the program, the Mayor noted that it represents another of his administration's efforts to tackle two of the city's most pressing problems: the shortage of affordable housing and the

deterioration of housing stock in depressed neighborhoods.

Sponsored by the Neighborhood Development and Employment Agency, the First-Time Homebuyer Program will offer 30 year mortgages with a below market interest rate of 11 3/4%. This low rate is made available by combining funds from the City's Community Development Block Grant and from the Massachusetts Housing Finance Agency. This combination financing package provides funds for 95% of

the cost of purchasing and renovating a home.

The First-Time Homebuyer Program offers a substantial cost-saving to eligible residents. For a family of four earning a total of \$22,000 per year, the monthly savings can be several hundred dollars. For example, to carry a house costing \$50,000 and in need of \$20,000 worth of repairs, a conventional bank mortgage would cost \$850 per month. Through the First-Time Homebuyers Program, the cost is lowered to only \$590 per month.

To be eligible for the First-Time Homebuyer Program, potential participants must:

- Have an adjusted household income that falls within the program's eligibility guidelines.
- Locate a 1-4 unit building in Boston which needs at least \$3,000 to \$6,000 worth of repairs.
- Enter into a formal agreement to purchase the property from its current owner.
- Have funds to cover the down payment and origination fee (usually 8% - 9% of the loan amount).

All loans for the First-Time Homebuyers Program are originated and serviced by the Shawmut Bank of Boston, First American Bank for Savings and the Bank of New

England.

To receive more information about the First-Time Homebuyer Program please call the NDEA/Housing Division at 725-3179.

Resin Bonded Bridge (Maryland Bridge)

The Resin Bonded Bridge is a relatively new procedure used for replacing missing teeth. The state of the art bridge is currently being utilized at the Bunker Hill Health Center Dental Unit. It can be used in place of the conventional bridge at a substantially lower cost.

With its advent, more conservative dentistry may be performed. Very little tooth preparation is required for the abutment teeth and no anesthesia (or shots) is necessary.

The process involves etching the abutment teeth to provide a retentive surface. A false tooth with two small metal projections on either side of it are cemented to the backside of the abutment teeth. The Resin Bonded Bridge allows for good esthetics and function.

Among its many advantages are its low cost, discomfort free and conservative treatment, and easier compatibility with surrounding tissue.

Wentworth Graduate

Scott D. Hayward of 197 Bunker Hill Street, Charlestown was among the 285 students awarded degrees and certificates at the summer commencement exercises of Wentworth Institute of Technology on the college campus recently.

Most of the students receiving degrees were in the cooperative education program. In this program the students alternate semesters between classroom/lab study and

employment in industry during the junior and senior years. These students, who earned more than \$1,000,000 collectively during the semester devoted to working in industry, received Bachelor of Science in Engineering

Technology degrees.

Carl A. Swanson, Needham, Vice President for Student Affairs, was commencement speaker. He spoke on "Your World of Technology."

Dr. Anthony L. Tilmans, Wentworth provost,

presented the candidates with degrees and certificates.

Hayward, whose major was Building Construction Engineering Technology, was awarded a Bachelor of Science in Engineering Technology Degree.

This house pulls its electricity out of thin air.

This is Boston Edison's new **IMPACT 2000** House—a living laboratory of energy innovation.

Here, photovoltaic solar panels may generate 40%-50% of the future homeowners' electricity needs, while solar water panels will provide 80% (based on a family of four) of the hot water needs.

Solar Electricity:
Photovoltaic cells, made of crystal silicon, convert sunlight directly into electricity. This technology has already been used to power NASA satellites.

A Sun Shower:
Water flows through a series of solar collectors, absorbing heat directly from the sun. It is then stored in hot water tanks, until it's time for a sun shower.

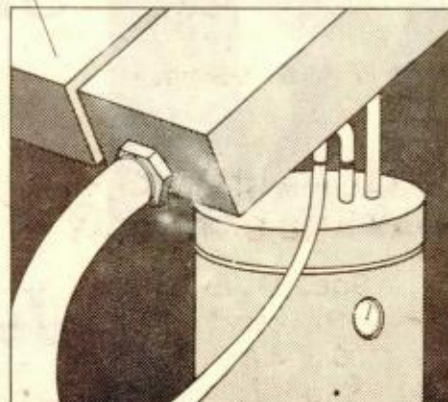

We've also incorporated a host of other energy technologies into the design of the House. Technologies that will help each of us save and produce more energy in the future.

That's why Boston Edison built the IMPACT 2000 House in the first place. We want to generate the information that will help us all lessen our dependence on foreign oil and use energy more wisely.

Information is power. And we want you to have all you need.

Archbishop Law To Celebrate St. Francis de Sales Jubilee 125 Anniversary Mass

(continued from page 1)

Police Officer Bill Connell, WHDH Traffic Reporter and a member of the parish, will serve as toastmaster.

Transportation will be provided to and from the dinner. The committee anticipates well over 1,200 people, and has also provided souvenirs for all in attendance.

Also planned is a special Mass for the children of St. Francis de Sales School

which is located atop Bunker Hill, and for the many children who attend public schools within the parish. A special dinner will be served after this Mass which is set for Thursday, November 15 at 11 a.m. Also, a children's circus will be held on Wednesday, October 17.

St. Francis de Sales Parish has limited the cost of all events by conducting raffles and selling T-shirts and sweatshirts with the

St. Francis de Sales Jubilee 125th Year insignia displayed on the garments.

One hundred twenty-five years ago, in 1859 on the eve of the civil war, Father George A. Hamilton began building St. Francis de Sales Church on Bunker Hill, which was also called Charlestown Heights. In those days when Catholicism was not fully understood and was even hated in Massachusetts, the people of Bunker Hill

were horrified at the idea of a Catholic Church rising out of the classic ground of the hill.

Deacon Hunnewell, who sold the land, was reproached and argued with by members of his church, but he carried out his agreement. There was even talk of violence, and Father Hamilton placed a watchman to guard the building at night. On September 11, 1859, Bishop Fitzpatrick, the third

bishop of Boston, dedicated the cornerstone. The church was solemnly dedicated on June 17, 1862.

The entire cost of the church was about \$200,000. The architecture of Celtic origin was designed by P.C. Keely. It is built of blue stone and is 150 feet long, 71 feet wide, with spires 181 feet high, towering even above the Bunker Hill Monument.

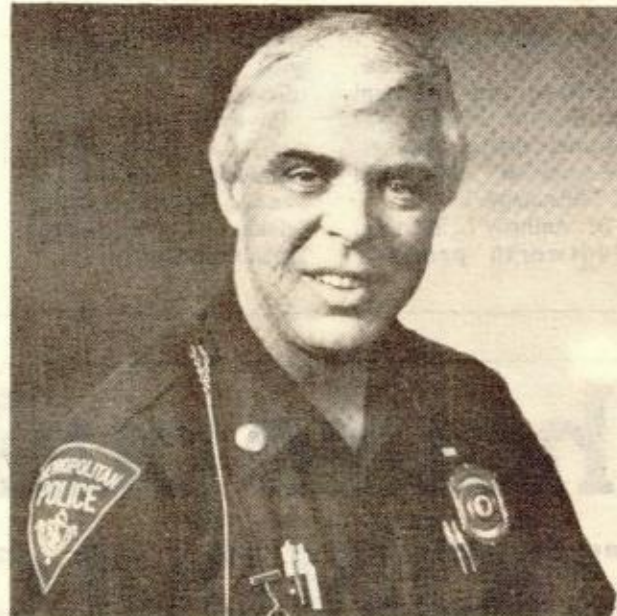

In this, the 125th Jubilee

Year of the founding of the parish, the church, to its parishioners, is still as beautiful as it was when first built. In its century and one quarter of existence, the history of St. Francis de Sales parish has been filled with memorable moments, such as when Cardinal Humberto Medeiros came to the parish to celebrate his first Confirmation in the archdiocese on April 5, 1971.

William "Bill" Connell To Serve As Master Of Ceremonies For St. Francis de Sales Jubilee 125 Banquet

Metropolitan Police Officer William "Bill" Connell, Skyway Patrol Officer for WHDH, will serve as the Master of Ceremonies and Toastmaster for the St. Francis de Sales Jubilee 125 Banquet to be held at Caruso's Diplomat on Route 1 in Saugus on Friday evening, October 12th. Bill Connell is a resident

of Bunker Hill Street, Charlestown and is a member of St. Francis de Sales Parish. He is married to the former Barbara Hughes of Charlestown and they have four children: William Jr., age 17, a senior at Malden Catholic High School; Liza, age 15, a sophomore at Mount St. Joseph

OFFICER BILL CONNELL

Academy; Michael, age 13, an eighth grade student at St. Francis de Sales School; and Stephen, age 9, a fourth grade student at St. Francis de Sales School. Both Michael and Stephen serve as Altar Boys at St. Francis de Sales.

Bill is also an alumnus of St. Francis de Sales School. He has been the host of many talk shows on several Boston radio stations. He also hosted his own weekly television show on Channel 27 in Worcester. Bill is a member of the Board of Directors of the Metropolitan Boston United Cerebral Palsy Association and is also on

the Advisory Board of the Jimmy Fund.

Officer Bill, as he is most frequently called, is a 13 year veteran of the Metropolitan Police and has been on the Skyway Patrol for WHDH for ten years.

Officer Bill served as Chief Marshal for the 1984 Bunker Hill Day Parade.

The St. Francis de Sales Jubilee 125 Anniversary Celebration Committee is honored to have Bill Connell, a man of stature, great character, and involvement in dedicated service in the Metropolitan Police and numerous outside activities, serve as the Toastmaster for the St. Francis de Sales Jubilee Banquet.

Jubilee 125 Shirts To Be On Sale Saturday

The Publicity Committee for St. Francis de Sales Jubilee 125 has been selling T-shirts and sweatshirts to help defray some of the costs of the parish-wide celebration.

The response from the parishioners, former parishioners and friends has been most supportive. In fact the committee has now added new colors to their sweatshirt orders and have also added pullover hooded sweatshirts for the fall and winter in four colors, for both children and adults.

Another addition will be handsome men's polo shirts with soft collars in jersey material, sporting a smaller St. Francis de Sales logo (over the heart design).

These garments, with the Jubilee design, have been selling quickly. If your choice of shirt has been sold out, the order can be filled in three days and they will even be delivered.

The committee will have a replenished supply ready to sell on Saturday, September 29th from 3:00 to 7:00 p.m. outside the church. NOTE: These sportswear items will not be sold on Sunday, the day of the Jubilee Celebration.

Don't be left out get your shirts on Saturday from 3:00 to 7:00 p.m. outside the church.

Appointed Promoter Of Mission

Sister Trinita McIsaac, daughter of Marion A. McIsaac of Arlington and the late Francis E., was appointed to the position of Promoter of Mission of the Dominican Sisters of St. Catherine, Kentucky. As Promoter of Mission, Sr. Trinita will research and communicate to her own Congregation and to the community at large the significance and relevancy of religious life in today's

world. Through a periodic publication she will make known the trends and developments which affect the mission of her own Congregation and of religious life in general.

As part of her responsibilities Sr. Trinita will be head of the office of Development with the task of raising funds to finance the cost of continuing the mission of teaching, healing, and relieving op-

pressive conditions wherever the sisters serve. Others may share in the mission of the sisters by making financial contributions to promote their good works.

Her broad experience as teacher, lecturer and counselor makes her admirably suited for her new tasks. Besides teaching Catholic elementary and high schools in Charlestown, Belmont, East Boston and North

Cambridge, Sister has been founder and director of the Ecumenical Life Center for Elders in Watertown.

One of the dreams she brought to reality was the establishment of the Inter-community Retirement Board for Religious in the Archdiocese of Boston. She was on the Eastern Regional Administrative team and served six years as Director of Retirement for the Dominican Sisters.

Boston City Councillor

Bertha

By Charlie McGonagle

Although she's nearly fifteen years old now, I've really only known Bertha for the past sixteen months. But to say she has quickly become a devoted and beloved member of my family would certainly be an understatement.

When I first heard of her, I was told she had been living alone and unattended for more than a year; and that nobody cared for her, nor about her. I remember quite vividly that morning of May 1983, when first we met. She was unkept and badly in need of a good bath. I noticed, too, that her shoes were worn nearly through. She was pathetic and unresponsive, but there was something about her that intrigued me, something that made me want to take her home, to live with me and my family.

The decision, of course, could not be mine alone, even though I was certain we could be good for each other. I was sure that with a large dosage of tender loving care she would gain trust in me and I in her.

I brought her home that warm morning for the others to see. My wife at first was totally unreceptive, but when I spoke of how Bertha would be a great help to us, she warmed a bit. I was convinced that my wife would develop kind, and perhaps loving, feelings toward Bertha with the passing of time.

My older daughter seemed to look upon her as a novelty of sorts, and because the difference in their ages would probably keep them away from each other on most occasions, she agreed she would not be a burdensome addition to our family.

Thinking back, now, I think it was my younger daughter's reaction to seeing Bertha that convinced us all that it would be right to take her in. It was apparent

that she saw something in this ragamuffin that the rest of us were unable to see. Her's was the deciding vote, and it kept Bertha with us. During the first few weeks, she seemed to have an uncaring attitude toward anybody who showed even the least bit of interest in her. Her nature could probably best be termed rebellious.

One of my first efforts toward establishing a healthy relationship with her was to buy her a pair of shoes. From the moment they were first placed on her feet, she seemed to take on a totally different personality, though it emerged very slowly in the beginning.

I don't know what sort of nourishment she had been taking since she had been abandoned, but the well balanced diet we provided for her brought her new energy and it was apparent in her daily performances that she relished it. She had more vitality, more stamina, and more endurance, and what we had given her, she returned one hundred times over.

From May of 1983 until September of 1984 only minor setbacks punctuated Bertha's relationship with me and my family, and all were readily rectified. During that time she traveled many places with me. Together we went to movies, to fine restaurants, to the beach, and even to the golf course. She was doing things and going places she had never done, nor seen before. It was with my younger daughter, however, that she enjoyed her best times. High school dances and football games were regular weekend activities during the Fall of 1983. There were very few times, indeed, that my daughter left home without Bertha. Their's was a very special relationship, and it spread to her circle of friends. It was highly unusual for any plans to be made by the entire group without including Bertha,

and that their affection for her was real, was vividly apparent.

We may have been good to her, but she was better to us. I was never quite certain whether it was gratefulness or love, but I always hoped beyond hope it was the latter. It was understandable, then, that when she developed a cough during the final days of the summer of 1984. We were all very concerned.

We all knew immediately that it was no ordinary cough; and each day it grew worse. She became listless and showed none of her previous spunk. Finally, it became apparent that she was in need of a checkup.

After several routine examinations had been made we waited for the results, and our worst fears were realized. Bertha had been diagnosed as 'terminal.' It came as a great shock to all of us, and the few days that followed are but shadowy images in my memories.

We were told to take her home, to let her live out her final days, for nothing could be done.

As those days became a week, Bertha did not get any better, but neither did she get any worse. This act, in itself, encouraged me to seek a second opinion. I was referred to a specialist and waited more than a week for an appointment.

After a morning of several different tests, our prayers of the previous two weeks were answered. Bertha had been misdiagnosed! She was not 'terminal.' She would not die! Proper medication brought her back to a state of health which surpassed even those pre-illness days.

Yes, Bertha, my daughter's constant companion, my 1970 Dodge Dart, will live!

Life Focus Center Receives Funding For Special Van

Senator Francis D. Doris and Representative Richard A. Voke outlined a variety of state programs to expand transportation opportunities for elderly and handicapped, programs which they said, "Will continue to be a top priority for us in the next

elderly and handicapped transportation, Senator Doris and Representative Voke explained. In the past eight years, the program has provided funding for nearly 300 vehicles to 80 community groups. The Life Focus Center in Charlestown recently

"This commission, which has been funded by a \$50,000 grant from Massport, will be holding public hearings throughout the State to determine the services needed by the elderly measured against those that presently exist. They will then make their

recommendations to the State Legislature on how to improve and expand on these services," they said.

Doris and Voke both expect the final results to be made public by next June and pledged their support for improved and increased elderly and handicapped transportation.

State Secretary of Transportation Frederick P. Salvucci thanked

Senator Doris and Representative Voke for their support of these vitally needed programs, saying, "Governor Michael S. Dukakis has made a strong commitment to improve transportation services for everyone in

the State, especially the elderly and handicapped. Senator Doris and Representative Voke have insured the success of the program by their votes in the State Legislature and have made a goal into reality."

SPECIAL TRANSPORTATION for Elderly and Handicapped. Senator Francis Doris, Representative Richard Voke, and State Transportation Secretary Frederick P. Salvucci, (shown from l. to r.) recently inspected a new 12 passenger wheelchair lift equipped van that was presented to the

Life Focus Center of Charlestown by the Executive Office of Transportation and Construction (EOTC). More than 300 vans and minibuses have been presented through the Mobility Assistance Program, a state program administered by EOTC and supported by Doris and Voke in the legislature.

two years in the legislature."

Doris and Voke, who have supported these programs in the past, said, "The services offered through the Mobility Assistance Program throughout the state and by the T's 'Ride' program in the MBTA District often provide the only means of transportation available for the elderly and handicapped to get to medical appointments, shopping, and community activities. We want these services to be available to everyone who needs them."

The Mobility Assistance Program provides grants to transportation organizations throughout the state to purchase specially-equipped vehicles for

received funding from the program.

The two local legislators said that the 1983 Transportation Bond Issue passed by the Legislature added \$1 million in State funding to this program, which had been previously supported solely by Federal funding.

"We were pleased to support the additional funding, which enables us to offer grants to a wider range of organizations and to expand the availability of services," Doris and Voke said.

Senator Doris and Representative Voke also stated that the Governor's Select Commission for Transportation Handicapped People will be releasing its findings shortly which should expand the transportation opportunities.

Completes Training In Military Leadership

Elizabeth M. Riley, daughter of Dorothy and William Riley, formerly of Charlestown now residing in Malden, has successfully completed training in military leadership at U.S. Army ROTC Advance Camp, Fort Bragg, North Carolina and her CTLT training at Fort Devens, Massachusetts.

Advance Camp is designed to train and test both physically and mentally in preparation for commissioning in the United States Army. It is normally attended by cadets between their third and fourth year of college and includes instruction in communications, management, and survival training.

Upon completion from Advance Camp, Ms. Riley reported to Fort Devens for additional training with the MP company which includes working in the Provost Marshal's Office, CTLT which is cadet troop, leading training provides ROTC cadets with a realistic leadership experience and first hand knowledge of the duties, responsibilities and living conditions of the junior of-

ELIZABETH M. RILEY

ficer in Today's Army.

While at the MP company, Ms. Riley was exposed to and worked with various sections of the Provost Marshal's Office such as Traffic Operations, Physical Security Investiga-

tions, and Office Post Operations which entails apprehending AWOLs and issuing warrants. She also attended desk sergeant classes, several commanders' briefings and participated in a health and welfare in-

spection.

Ms. Riley has been awarded the AUSA Award by her ROTC unit which is the Association of United States Army and is given to that cadet who contributes most toward advancing the standing of the Military Science department at the institution based on their leadership ability and their academic grades.

Ms. Riley has also made the Dean's List at Suffolk University where she is majoring in Criminal Law. Elizabeth Riley is a graduate of St. Catherine's and is a former resident of Charlestown.

It's A Boy...

Mr. and Mrs. George McCabe of 21 Prescott Street, Everett announce the birth of their son, Jonathan George, on September 16, 1984 at The Malden Hospital.

The maternal grandparents are Harvey and Alice Campbell of 85 High Street, Charlestown.

The paternal grandparents are Marjorie McCabe of 2 Hill Street, Charlestown and the late George McCabe.

Jonathan was welcomed home by his sister, Jennifer, and his brother, Jeffrey.

Urban Design Lecture At The Library

The Charlestown Branch Library, 179 Main Street, presents **Urban Design and the American City**, a series of six illustrated lectures using examples of Boston, especially Charlestown, as well as other cities.

The series which will be held on Thursday evening at 7:30 p.m., features lecturers, Michael and Susan Southworth, partners in their own architecture and urban design firm and

authors of the **American Institute of Architects' Guide to Boston**.

On October 4, 1984, **The Nature of Urban Design** will explore the question, "Can the city be a work of art?" Urban design - its goals, methods, and achievements - will be examined from both historic and contemporary perspectives. Michael Southworth will be the featured lecturer.

BRA Board To Act On Charlestown Property

The Boston Redevelopment Authority (BRA) Board will act upon a recommendation that a Certificate of Completion be issued to James Duffy on the Duffy Tobacco Company on Main Street. This action is expected at today's (Thursday, September 27) Board

meeting, held at 2:30 p.m.

The Certificate of Completion will clear the legal title of the building and signifies that the developer (Duffy) has completed rehabilitation of the property according to the terms of the original plans approved by the B.R.A.

Edco Registration Open

MDC To Hold Meeting On Design Of New Wastewater Pump Station

The Metropolitan District Commission (MDC) will be holding a public meeting concerning design of the new wastewater pump station to be located in Charlestown. The meeting will take place at the Kent Community School, 50 Bunker Hill Street at 7:30 p.m., Wednesday, October 3, 1984. We are inviting interested people and representatives of organizations to attend.

A nine month long study to determine what improvements will be needed to the existing 90-year-old Charlestown Pump Station, located on Alford Street at the Malden Bridge, was completed in 1983. A public hearing was conducted by the MDC on August 9, 1983 to review study conclusions by the Boston engineering firm of Camp Dresser & McKee Inc. (CDM).

Three alternatives were studied: rehabilitation of the existing pump station, building a new pump station on the south side of the Malden Bridge and building a new pump station on the north side of the bridge. The only practical site for a new pump is on land owned by the MBTA, north of

the Malden Bridge, and across Alford Street from the existing pump station. Rehabilitating the existing pump station would have been the lowest cost alternative. However, major structural repair of the station substructure would be impossible to undertake without danger to the structural integrity of the entire station. Structural repairs considered under the alternative were intended to fix evident problems. They would not address the underlying causes of these problems. Furthermore, no matter how thorough a rehabilitation program, many compromises and deviations from current standards for pump station design and safety would have to be made.

CDM recommended a new pump station be constructed on the MBTA property across the street from the existing station as the most environmentally sound and cost-effective plan. Design of the new pump station by CDM proceeded on May 7, 1984. At this time the project is nearing completion of the preliminary design phase.

Preliminary layout of the 93 million gallon per day capacity station on the property, and layout of equipment and operator space within the pump station and associated building are complete. Location of the influent sewer and force main have also been determined for the \$13,000,000 project.

The purpose of the meeting is to inform public officials, interested groups and the general public of progress to date on this important project. The project will benefit directly Charlestown and portions of Cambridge, Somerville and Medford. However, it is part of an overall masterplan adopted by the MDC to provide long range benefits of water pollution control to all its membership communities.

For further information, contact Ms. Katina Belezos, public participation coordinator or Daniel K. O'Brien, Director, Program Management Office (Telephone 727-8881).

A Dog's Plea

Treat me kindly, my beloved friend, for no heart in all the world is more grateful for kindness than the loving heart of me.

Do not break my spirit with a stick, for though I should lick your hand between blows, your patience and understanding will more quickly teach me the things you would have me learn.

Speak to me often, for your voice is the world's sweetest music, as you must know by the fierce wagging of my tail when your footstep falls upon my waiting ear.

Please take me inside when it is cold and wet, for I am a domesticated animal, no longer accustomed to bitter elements. I ask no greater glory than the privilege of sitting at your feet beside the hearth.

Keep my pan filled with fresh water, for I cannot tell you when I suffer thirst.

Feed me clean food that I may stay well, to romp and play and do your bidding, to walk by your side, and stand ready, willing, and able to protect you with my life should your life be in danger.

And my friend, when I am very old and no longer enjoying good health, hearing and sight, do not make heroic efforts to keep me going. I am not having any fun. Please see that my trusting life is taken gently. I shall leave this earth knowing with the last breath I draw that my fate was always safest in your hands.

To Charlie (S.T.O.P.)

I hope this helps a bit. I know Goliath wasn't just a dog.
Love,
Bridy and Jodi

Affordable Rental Apartments Needed

To the editor,

The greatest need today is decent affordable housing. Boston is suffering from a housing shortage due to an influx of luxury apartments and condo conversions. These two situations have displaced lower and moderate income people. I had to leave the city I was born in to find a suitable apartment for myself and my wife. Rents are soaring in Boston's neighborhoods and the working class is getting squeezed out of the rental market.

I support Mayor Flynn's Housing Policy. Boston needs a comprehensive Housing Plan to deal with the present reality and the future possibilities.

A head-in-the-sand attitude will make a bad problems worse. The only way to keep young neighborhood people in the city is to provide them with decent affordable, rental

apartments. Otherwise, potential Bostonians will have no choice but to look north or south of Boston for their future.

Sincerely,
Sal Giarratani

Our Thanks

Dear Gloria,

We, at Gardens for Charlestown, want to thank everyone involved in the Garden Tour. Though the weather was disappointing, those who braved the rain were rewarded by the wide variety, beauty and creativity of the featured gardens.

We would like to also thank Betty Gibson Associates, Bunker Hill Real Estate, Carolyn Sideman Associates, Silva-Century 21, and Margaret Harrington for their generous support, as well as Marie Paul-Welling, the Charlestown Working Theater, and, of course, you and the Patriot for your help in publicizing this town-wide event.

Sincerely,
Barbara Maheigan

My Thanks

To the Editor:

I would like to express my appreciation to Representative Richie Voke and David Flanagan of Mayor Ray Flynn's Office. Thanks to the efforts of these two men (along with many others), a ramp was installed on the curb outside our home.

This makes our Bobby's transportation problems much less of a problem and our family is truly grateful.

Special thanks to Margie and Joe Kent for all their help in this matter.

Thank you
Mrs. Gail F. O'Neill

Thank You

The staff at the old Kent School would like to thank Scott Lowney and Stephen Scalli for the excellent paint job they did in our school, supervised by Pat McGonagle. We wish to thank all of them.

HOMEOWNERS ALERT!

Stop Your Taxes from Going UP!!

The Boston City Council will soon vote on a rent control bill that **will raise your taxes** — whether you live in your own single or multiple family home or condo.

If this **dangerous** program is passed and signed into law, the effect will be **devastating** for the homeowner.

On controlled property:

- Resale values will **drop dramatically**
 - **Fewer** banks will lend mortgage money
 - **Hard-to-sell** buildings will become **never-to-sell**
 - Property values will **fall and deteriorate**
- all resulting in

on uncontrolled buildings

HIGHER TAXES FOR YOU!

You will have to make up for the tax loss from the controlled properties

To make sure this **unfair** plan is not passed and your taxes are not **unjustly** raised, you must call your City Councillor **immediately** and voice your objection to any new rent control or condo ban.

Your City Councillor must be contacted at the following phone number and urged to **vote against** this rent control and condo restriction plan.

Pop Warner Corner

In Pop Warner Football action this past weekend, the Charlestown C Team won its first game by the score of 13 to 0. The whole team played an outstanding game.

The Charlestown B Team was in the losing column. This team is very small in numbers and size, but they

give all they have at the games.

The A Team lost by a score of 21 to 0 against a tough East Boston team. Good luck this week.

There have been two cars broken into during two of our home games. This is a disgrace! These few kids that are breaking into cars

are going to ruin everything Charlestown Pop Warner has worked for and the result, if this continues, will be that we will not be able to play home games.

Olympic Marathoners Will Run To Freedom

1984 Olympic Marathon bronze medalist Charlie Spedding of Great Britain and Cambridge, will lead over 4,000 runners, including a select international field, in the Eighth Annual Saucony/Freedom Trail Road Race, scheduled for Sunday, September 30, at 12 noon, starting and finishing at Boston's Waterfront Park.

The Boston-based Spedding, a former employee at

Marathon Sports in Cambridge, will be joined by New Zealander Rod Dixon, a three time Olympic and 10th place finisher in the 1984 Olympic Marathon. Dixon is the 1983 New York City Marathon champion (2:08:59) and the defending Freedom Trail titlist.

In addition, British Olympic Geoff Smith, the 1984 Boston Marathon champion; Greg Meyer, the 1983 Boston Marathon champion and Wellesley's Bruce Bickford, who recently defeated the Italian Olympic and World Champion Alberto Cova in a European track 10K, will also vie for top honors in this years race.

The eight-mile run through Boston and neighboring Cambridge, passes through many of Boston's most historic neighborhoods and alongside many of the city's most famous landmarks.

Facts About Drugs - F.A.D.

Is "Hash" another name for marijuana? Hashish comes from the female hemp plant called cannabis indica or Indian hemp. So does marijuana. But hashish is usually eight times more potent than marijuana. Among drug users, it is usually seen as a hard brown lump after being harvested from the plant at maturity. The darkness is a sign of the strength: light brown is least and dark cocoa brown or black is most potent. It has a sweetish, minty smell and taste.

In India, hashish is generally consumed by smoking; in North Africa it is smoked or eaten. Hashish intoxication feels a bit like mescaline intoxication. These effects include distorted perceptions of various parts of the body, spatial and time distortions, intensification of scents, tastes, colors and sounds. Sometimes there are visual hallucinations when the user sees faces as grotesque. Anxiety, dread and paranoid-like fears are other effects. These effects are more violent when it is swallowed; for the smoker can regulate the degree of intoxication by making it gradual. Tolerance to hash develops only to a slight degree and physical dependence does not develop. Long-term heavy hashish users do suffer some discomfort when they abruptly discontinue the drug.

The chief danger of the drug is the feelings of powerlessness and the mental deterioration with prolonged usage. In the U.S., users of cannabis most often choose marijuana so this deterioration is not so commonly seen. It is more expensive than pot.

One user of marijuana said "I laid off five years ago, and if anybody asks my advice today, I tell them straight to steer clear of it because it carries a rap. That's my final word...today I know one very bad thing...it can put you in jail."

Any questions? Call Mimi White, Boys and Girls Club, Charlestown, 242-1775.

Freedom Trail Road Race

(continued from page 12)

the Hub of Boston's recently revitalized Waterfront Area, the course proceeds from the Waterfront through Charlestown, up the Cambridge side of the Charles River along Memorial Drive, across the Charles at Massachusetts Avenue, down Commonwealth Avenue, through the heart of the Back Bay, over Beacon Hill, through Government Center, past the Haymarket District, through the North End and back to Waterfront Park.

The Freedom Trail Road Race was created by Founder Thomas Griek as a celebration of Boston as one of America's most historic cities and one which has a continuing tradition of overcoming adversity and continuing progress. The Freedom Trail Course was designed to symbolize the history of Boston's development by starting and finishing in the historic and now reclaimed Waterfront Area, comprising both the old and new Boston.

The race will begin at 12 noon on Sunday, September 30, 1984. Entries will be limited to the first 4,000 runners in order to help ensure the conduct of a safe and enjoyable race.

Race applications can be obtained at all running and sport shops throughout the greater Boston area or call 924-7248.

Engineering Scholarships Available

High school seniors and college students interested in pursuing engineering careers may apply for grants and scholarships offered by the National Society of Professional Engineers (NSPE). Awards in the nation-wide scholarship program range from \$1,000 to full scholarships.

Richard F. O'Brien, P.E., who serves as Scholarship Chairman for Massachusetts, said

scholarship recipients will be selected on the basis of academic standing and participation in extra-curricular activities. In last year's program, 11 students from the Metropolitan Boston area won scholarships with a combined value of more than \$116,000. Awards in this year's program will total more than \$1.2 million.

To be eligible for the high school awards, a stu-

dent must be a high school senior with at least a "B" average, have minimum SAT scores of 500 Verbal and 600 Math, and plan to enroll in a college or university with an accredited engineering curriculum. The undergraduate awards require that a student have completed 2 semesters or 3 quarters of a college engineering program with a minimum grade point average of 3.60. All applicants must be U.S.

citizens. Students must submit applications to the local chapter by December 15, 1984. National winners will be selected in April, 1985.

For applications and more information on the NSPE Scholarship Program, students should contact their high school guidance counselor, or Richard F. O'Brien, P.E., c/o Parsons Brinckerhoff, 120 Boylston Street, Boston, MA, 02116, telephone 426-7330.

Visiting Faculty From Taiwan

Three visiting faculty members from Taiwan are in residence at Bunker Hill Community College this academic year.

Liza Wang (Kuang Sheng Wang), is a dance/theater instructor from the Taiwan Academy of the Arts, where she teaches classical Chinese dance. At Bunker Hill Community College, Ms. Wang will participate in play production workshops and acting classes, as well as the College's English as a Second Language program and typing courses.

Mr. Ke-ryan Ma, from the Taichung Institute of

Commerce, is studying software applications in higher education. At Bunker Hill Community College, Mr. Ma will teach and participate in computer courses and the English as a Second Language program.

Sharing a downtown Boston apartment with Mr. Ma is Mr. Shun Der Su, from Pingtung Teacher's College, where he teaches computer science and math. While at Bunker Hill Community College he'll observe computer teaching methods and also be involved in the English as a Second Language program.

S.T.O.P.

By Charlie Ross
 THAT ANOTHER MAY LIVE

Urban/Suburban newspapers recently carried accounts of the plight of a young Hanson man in need of both a heart and lung transplant as a consequence of his suffering from an incurable congenital disease, interstitial fibrosis, which stiffens the lungs and eventually causes damage to the heart.

The stories we read didn't allow for the fact that he lost his father, Albert ("Bert"), and two older twin brothers (at the very young ages of 27 and 33) to this same ailment....and our knowledge is first-hand.

Frank Delehanty, a retired member of Local 1066, I.L.A., now residing with his wife, Gladys, at Apache Junction, Arizona was my hatch partner on several ships on the Boston waterfront over a period of many years. Bruce's mother, Eileen (a resident of Dedham), is Frank's sister, and through this work/friend relationship we came to know the Thorne's and their lovely family. As a matter of fact, if memory serves me correctly, it was Bruce who purchased my first car - a Rambler station wagon - for the princely sum of \$1. I never did find out if he and "Uncle Frank" got it running, and I'm still not going to ask.

Bruce, his wife Joan, and their two-year old son Michael are now temporarily renting in the Palo Alto area of California, which puts him in proximity to the Stanford University Medical Center, where the operation will be performed. Since arrival, he has been informed of his acceptance into their donor program, and the ever-present "beeper" he wears will one day soon, hopefully, call him for the momentous operation he must undergo.

Having anguished through a three year period for a daughter with pediatric cancer (successfully, thank God), we are acutely aware of the tremendous expenses attendant upon such a major operation. The operation itself will cost in the \$200,000 vicinity, then there's an anticipated 10 month in-hospital period of recuperation, housing costs and the expenses relative to its operation, along with daily living expenses.

Bruce Thorne once spent a summer working on the Boston waterfront. That, along with his relationship to 'one of our own,' gave dockworkers the added impetus to start raising funds immediately. Checks have been mailed week-

ly, and will continue... and it's little enough that we do for this 33 year old, whose doctor has stated that without the transplant "his life expectancy is less than a year."

His former schoolmate at Stonehill College, Malcolm Nordley of Chatham, is doing a yeoman job of fund raising, with dances and other events contemplated early Fall. In addition, a fund has been established. Donations can be made to the Bruce Thorne Trust at the Quincy Cooperative Bank, Box 802, Quincy, Mass. 02269.

Those that can't help financially might consider donating their organs when they die through the Registry of Motor Vehicles Donor Program, and we solicit the prayers of everyone. Whatever and however, from whomever from wherever, the Thorne and Pendergast families will sincerely appreciate.

To that, please allow me to add a personal message... Good luck, Bruce!

JOIN US AT BLINSTRUB'S...

Boston's Chapter of Full Gospel Businessmen's Fellowship International will be holding its second dinner meeting the evening of October 5th, at "Blinnie's" on Morrissey Boulevard, Dorchester, at 7:30 p.m.

Father Joseph Manning, author, international speaker, and frequent guest on radio and television, will speak on his life and ministry from his youth in St. Peter's Parish, Dorchester, through and after his ordination by Cardinal Cushing.

A full course dinner, music, fellowship, and special selections sung by "dynamic" singer Paul Neves are all part of what promises to be an enlightening evening. Off the record, I volunteered to sing-along with Paul but got turned down because I only know two songs... one is "Yankee Doodle" - the other isn't. We guarantee you'll forget that bad joke seconds after you hear his great voice.

Tickets are \$10, and space is limited. Don't procrastinate because arrangements are in advance only. Give Walter White of The Mustard Seed Bookstore on Gallivan Boulevard a call, or stop by. ALL are welcome.

Charlestown Police Line

From the desk of
Deputy Superintendent Joseph V. Saia, Jr.
Commanding Officer, Area A
Downtown, Charlestown, East Boston, Beacon Hill

On September 14, 1984 at 7:30 a.m., Detective Sergeant Gottschalk and Detectives Donohue and Gleason arrested a 21 year old Charlestown resident on a warrant issued from Charlestown Court. The suspect was wanted for the Armed Robbery of a cab driver, with a knife. He was taken to Area A to be booked and arraigned in Court.

On September 14, 1984 at 7:30 p.m., Police Officers responded to Main and Dunstable Streets on a report of a drug deal. Upon arrival, the Officer observed a 17 year old youth selling drugs. He was placed under arrest and taken to Area A. Confiscated from the suspect were 24 bags of white powder believed to be Cocaine. He was later booked for Possession of a Class B Substance (Cocaine) with intent to distribute.

A victim came into Area A on September 14, 1984 at 9:00 p.m. to report a larceny from her motor vehicle. She stated that while her car was parked in the lot of Store 24 at

Thompson Square, unknown person(s) stole her car stereo, damaging the dashboard in the process.

On September 16, 1984 at 6:50 p.m., Officers of Area A arrested a 15 year old male, on a warrant from Charlestown Court, at Main and Sullivan Streets for Possession of Class B controlled substance with Intent to Distribute (Cocaine). He was taken to Area A, advised of rights and booked.

On September 19, 1984 at 3:30 a.m., Police Officers responded to Common Street on a Breaking and Entering report. Upon arrival, the Officers spoke with the victim who stated that he observed three unknown white males inside his apartment going through his belongings. The noise of the entry woke him up and he chased them from the premises. Entrance was gained by the side window of the first floor of the apartment. It is too bad that the gentleman didn't get a hold of one of the suspects.

On September 19, 1984 at 9:45 p.m., Police Officers observed a white male trying to break into an apartment on Main Street the suspect, a 23 year old resident of Charlestown, was apprehended, arrested and taken to Area

A for booking.

On September 20, 1984 at 8:20 a.m., Police Officers responded to Old Ironsides Way on a report of an Assault & Battery with a shod foot. Upon arrival, the Officers spoke with the victim who stated that a white male known to her threw her down 16 steps of her apartment three different times, and kicked her, punched her about the face and head. The victim was brought to BCH by ambulance, where she was treated for head and back injuries.

The next Community Service Meeting will be held on Tuesday, October 9, 1984 at 7:00 p.m. at the Kent Community School, 50 Bunker Hill Street.

Developer To Be Named For Bunker Hill School

The City of Boston Public Facilities Department will announce at a meeting to be held today (Thursday, September 27th) that the Crownshield Corporation of Peabody will receive tentative developer designation of the Bunker Hill School.

This announcement follows months of indecision on submitted proposals. According to Ms. Jan Noonan, Real Estate Manager of the Department of Public Facilities, the Crownshield proposal of 17 two bedroom condominium units received the most favorable acceptance from the community. According to the Crownshield original plan five of the 17 units will be set aside as rental apartments for a ten year period.

Originally, there were four proposals submitted for the 118 year old structure which is located at the corner of Baldwin and Bunker Hill Streets. The developers included the Bunker Hill Preservation Society: Dudley Godfrey, Jr. and Ernest Lonano; the New England Housing Corporation; and the Crownshield Corporation.

All but the New England Housing Corporation submitted plans for a condominium conversion. The Housing Corporation is involved in researching and developing housing alternatives for low and

FORMER BUNKER HILL SCHOOL

moderate income families. Their plan called for a co-operative management arrangement where the occupants partially owned and operated the facility.

Noonan also stated that two of the developers, the Bunker Hill Preservation Society, and Dudley

Godfrey, Jr. and Ernest Lonano, withdrew their proposals.

As a result of the withdrawal of these two condominium proposals, Noonan stated, Crownshield will be awarded the tentative designation since the community input and petitions favored con-

dominiums.

Noonan stated there will be a community meeting in the next few weeks to allow for neighborhood review of the accepted proposal.
