Questions Frequently Asked

Can I create a hyperlink to my uploaded content?

No, hotlinking is not allowed for any files uploaded to our systems.

What differentiates Filespace from the competition?

In other situations, URL sharing is an integral part of the service. Filespace, on the other hand, was designed from the bottom up with file hosting in mind to be lightning-fast, efficient, and frictionless.

Use Filespace.com to accomplish my goals.

Your directories may be stored, viewed, and retrieved quickly. Sign up for a free account to donate immediately!

How risky is this website?

Fitespace uses industry-standard encryption to safeguard your account. Your share URLs are almost impossible to anticipate and nearly uncrawlable by search engines unless they are placed in public sites such as blogs and message boards.
