GARAGES.

CAR. BOAT. WALLET. ALL COVERED.

**Gable.
Heritage.
Dutch Gable.**

Whether it's a car, a boat, the workshop or for storage, Olympic Industries garages are versatile and fit for a wide range of purposes.

Regardless of the size, the colour or the style, our garage designs allow the flexibility to adapt and suit the space you have available and the style of your home.

BUILT TO LAST

A great garage makes all the difference.

Like all investments, the right garage can have a massive impact on your lifestyle. It can add value to your home, protect that classic car you'll get around to fixing up one day, or provide some undercover storage space that makes life just that little bit simpler. A large range of customisable extras mean your options are endless.

Olympic Industries garages, like all our products, are manufactured by us in South Australia using our superior engineering designs and high-quality Australian steel. Whether it's in the suburbs or the country, our products are built to last. We figure if they are strong enough for the harsh Australian country, they are strong enough for the suburbs.

It means you get a quality garage with factory direct pricing.

Customise your garage to suit your needs.

VERANDAHS.
ENTERTAIN
WITHOUT
THE RAIN.

Like many Australians, we love the great outdoors. There's not a lot that's better than a barbecue with friends and family on a summer's day. Our verandahs allow you to enjoy what you love, longer. Whether it's providing shade for lunch, protecting the kids from the sun or keeping your parked car cooler, our high quality carports and verandahs are almost essential for the Australian lifestyle.

Our skilled designers will work with you, exploring style options and a wide range of Colorbond® colours to blend with the architecture of your house and providing you with the perfect solution to suit your home and your needs.

Your new verandah or carport can be delivered as a DIY kit with easy to follow assembly instructions, or we can take the hassle out of your hands and arrange full installation with one of our experienced and licensed installation teams.

Need extra space to escape? An extra bedroom? Games or pool room? Olympic Industries have the solution to get you the extra space, while adding value to your home and improving your lifestyle.

Olympic Industries have a wide range of garden and tool sheds to fit any backyard.

Choose from either standard or custom designed.

Choose your fence.

Easy DIY installation.

Need a new fence? We can help. Post and rail, good neighbour, Olympic Industries fencing is available in zinc or Colorbond® - along with any fittings, cappings and gates required. Fancy yourself handy? Our fencing is provided in an easy kit for DIY installation.

A photograph of a large, long metal shed with a corrugated roof. A cow is visible in a fenced area in front of the shed. The foreground is filled with tall, green and yellow grass. The sky is overcast with grey clouds. The text is overlaid in the lower half of the image.

Our sheds come in all shapes and sizes – and sometimes they need to fit something much larger than a wheelbarrow! Our rural sheds are large enough and strong enough to resist the harsh Australian climates, while protecting machinery, heavy vehicles, livestock and livelihoods.

Olympic Industries are renowned as leaders in the industrial buildings market. Whether it's a factory, office, warehouse or just an enormous shed, we can supply the building to suit your needs. Our sheds have housed people, emergency vehicles, racing cars and mountains of stock.

INDUSTRIAL. IT'S OUR BUSINESS TO PROTECT YOURS.

Olympic Industries' professional consultants will give you the right advice for your site, providing individual designs and quotes, guidance and assistance with planning approvals and on-site supervision. You get the peace of mind you need, with guaranteed lasting satisfaction and a result that's built to last.

JUST THE WAY YOU LIKE IT.

Select from a range of options to suit your lifestyle.

Auto Door Openers

Perfect for cold, wet evenings or when it's difficult to open the door on your own, the auto door openers come with remotes.

Garaport

Your garage can be further extended with a Garaport addition. This provides open-sided protection for another vehicle.

Doors

A combination of door openings available including roller doors, sliding doors and personal access doors.

Windows

Aluminium and louvre windows available.

Skylights

Let the natural light into your garage.

Insulation

Wall and roof insulation are available across the entire range.

Carrier Beams

Increase your opening with standard 6m, 9m or 12m beams.

Keyed alike and keyed to differ

Either one master key system to open multiple locks, or choose to have each lock require its own key.

Spinning Ventilators

Keep the air flowing inside with a range of ventilators to choose from.

Cladding Profiles

CORRUGATED

Roof and wall cladding and fencing applications.
Available in zincalume and colorbond.

O.P. PANEL

The versatile cladding for wall, ceiling, facade applications.
Available in zincalume and colorbond.

UNICLAD

Modern low profile roof and wall cladding and fencing applications.
Available in zincalume and colorbond.

RIB ROOF

For low pitched roofing, carports and verandahs.
Available in zincalume and colorbond.

HI-DECK ROOFING

For low pitched roofing, carports and verandahs.
Available in zincalume and colorbond.

SUPERIOR DESIGN AND ENGINEERING.

COMPETITOR

Column
Sleeve
bracing

Fully welded,
heavy
plate & bolt
connection

Jig welded trusses are bolted directly to columns. Simple assembly process with excellent build stability.

75C section
girts & purlins
Flat profile
Smooth look
Nut & Bolt fixing

Corner
column
facing
outward

75 x 50 C-Sections provide a clean appearance – fixing screws are less visible. Column in corner maximises interior space.

Fully Jig
welded
Portals and
A frames

Superior build accuracy. Excellent build stability with smooth, clean appearance.

Bolt
only fixing
duty

Rafter not
directly
connected
to column

Fiddly, complicated assembly. Poor structural integrity during the build until columns are set in concrete.

Corner
column
facing
inwards

Top Hat girts
and purlins
All exposed
Tek fixings

All Tek fixings. Excessively visible screws. Fixing of Top Hat to back of inward facing columns encroaches on interior space.

Mixed bolt
and Tek
connections

Trusses are
not directly
connected to
each other

Complicated assembly. Structural integrity is compromised even after concreting.

FACTORY DIRECT. SINCE 1969.

Established in 1969.

Olympic Industries design and construct steel buildings from small garden utility sheds to large industrial buildings. It is a family business based in Adelaide, South Australia and established in 1969. Combining the know-how of architectural designers, the skills of the manufacturer and the experience of licensed installers, Olympic Industries continues to be a multi award-winning and leading company in the Australian home improvement market.

Our many awards include the BHP Trophy for the Best Use of Australian Steel and the ANZ Bank Award of Excellence.

Materials - factory direct.

A significant initiative was taken in 1978 when Olympic Industries purchased roll forming machinery and started rolling its own steel sections. The big breakthrough came with the development of the 75C Steel section, which revolutionised garage construction in Australia.

The guarantee of quality offered by Olympic Industries has enabled us to become one of the leading suppliers of steel garages in Australia. We have developed industrial building designs in excess of 20,000 square metres.

The primary supplier of materials is BlueScope Steel and extensive use is made of Colorbond® and Galvaspan® steel in Olympic Industries products and structures.

Extras. Enough for anywhere.

Whether it's a garden shed or an industrial building, details matter. That's why all our builds get the Olympic Advantage.

This is what our installers say...

I've been working with Olympic Industries for nearly forty years and can absolutely vouch for their products, installations team, logistic and support as being the best in South Australia - and I know many installers would agree! The Olympic Industries product is a solid structure, designed to handle the harsh Australian climate and it looks the most appealing product on the market with a smooth and clean finish. Most importantly, they are the easiest, most effortless, uncomplicated and straightforward sheds to build. This is mainly due to the precise manufacturing and welded components that easily fit together. I can put their shed up almost twice as fast as other competitor's sheds which use complicated loose plates and brackets. The welded components that Olympic Industries use make the shed exceptionally strong!

Colin Jackson *Installer*

The right choice.

With experienced engineers and quality structural materials, Olympic Industries have the best structures on the market. We manufacture our own components, so you are buying factory direct, which equals huge savings!

Olympic Industries' design and extensive in-house manufacturing processes assist greatly in providing extremely robust and versatile structures which are the industry benchmark.

Professional installers prefer an Olympic Industries build to any other due to the simplicity, sturdiness and ease of assembly – saving valuable time and money.
