About Austin Emergency Center

We created Austin Emergency Centers (AEC) to bring concierge-level, quality emergency Our patients enjoy the ambience and aesthetics of a high-end private practice, followed by experienced, emergency room physician, within minutes of entry to our facilities. We offer when minutes count.

All testing is done quickly, without the delays associated with traditional, hospital-based e contrast to an urgent care clinic, AEC is a freestanding emergency room. Our facilities use and technology of a modern hospital emergency room, including CT scans, bedside emerg radiology, and a full clinical laboratory — all in the comfort of an upscale clinical environme inconveniences associated with a hospital-based setting.

In addition to our board-certified emergency room physicians, our centers are staffed with nurses, CT and X-ray technicians, EMT technicians, and a courteous front office staff. At A you with compassion, speed, and quality medical care. Our doctors strive to spend time w extra effort to answer all questions prior to discharge. For your convenience, we are open

At AEC, you have the benefit of being evaluated and treated with state-of-the-art medical scans, digital X-ray technology, and ultrasound. And the best part is, your results are read You are in good hands at AEC. Our onsite laboratory can process complete blood counts, e urinalysis, cardiac enzymes, and other emergency department tests. Additionally, we are e electrocardiogram testing and analysis.

From the minute you walk in, you will notice the difference. Our friendly staff will greet yo
