● MY WORK EXPERIENCE

Hi, I am İlyas and I am an designer and visualizer
I have excellent communication skills and can communicate well
with clients, vendors and others involved in the interior design
process. Good problem solving skills and I am able to quickly
develop a solution when a problem arises.I'm a creative architect
with more than 6 years of experience in architectural visualizations.

Nowadays good renders are not just about creating realistic
materials and lighting. It is about storytelling and evoking
emotions.

My architectural visualizations will evoke the emotions and desires
of your potential buyers/clients.

- AutoCAD Floorplans
- 3D modeling and visualizations
- Site plan allocation and design
- Conceptual Building Designs

My main skills are:

- Ideation sketches
- Concept development
- 3D modeling for visualization and production
- 2D rendering
- 3D visualisation rendering/ Studio rendering
- animations
