

STOP ANIMAL CRUELTY BAN FUR FARMING IN ONTARIO!

There are dozens of fur factory farms in operation across the province. There may be one just a few minute drive from your home!

Fur factory farms resemble puppy mill style operations where animals are forced to live in restrictive wire cages stacked side by side.

Animals like mink & fox never touch the ground and are inhumanely killed by electrocution and suffocation.

Long periods of inactivity and lack of stimulation lead to frustration, distress, and abnormal repetitive behaviour such as pacing, cage biting, self-mutilation and physical deformities.

Animals are forced to breathe toxic fumes from their own urine and feces causing respiratory problems and eye infections.

Many countries have already made fur farming illegal.

STOP ANIMAL CRUELTY BAN FUR FARMING IN ONTARIO!

TAKE ACTION NOW!

Call Jeff Leal
Ontario Minister of Agriculture

705-742-3777
and demand a ban on fur farming.

Hello, my name is (your name). I am calling to let minister Jeff Leal know that I am shocked to learn that fur farming is still happening today in Ontario.

I am very disturbed that animals are living in such terrible conditions and are being inhumanely killed for wealthy people to use as a clothing decoration. Many other countries have made this cruel practice illegal already and I want the minister know that I support a full ban on fur farming. I would like to know what steps the minister is taking towards enacting a ban.

Please leave a message if calling after hours. Feel free to call multiple times. Try to not be the first one to hang up during the call.
