

MANTIKORE CRANES

Since 1990

MOBIL CRANES SYDNEY

About us

Mantikore cranes are providers of tower, self erecting and electric luffing cranes. Our cranes and personnel are suitably skilled and experienced to over come all kind of crane challenges. Ranging from small to large projects we have a crane to meet your needs.

Our Cranes

Tower Cranes

Tower cranes are a modern form of balance crane that consist of the same basic parts. Fixed to the ground on a concrete slab.

Self Erecting Cranes

Self erecting cranes Simple, rapid and entirely autonomous, Self-Erecting Cranes are especially suited to construction sites that are of a short duration and require frequent to infrequent operations.

Mobile Cranes

The most basic type of mobile crane consists of a truss or telescopic boom mounted on a mobile platform — be it on road, rail or water.

Electric Luffing Crane

An early form of level-luffing gear was the “Toplis” design, invented by a Stothert & Pitt engineer in 1914. The crane jibs luffs as for a conventional crane,

Choose US
