

Buy Original Undecanoate 250 mg(Testosterone Undecanoate)

Undecanoate is a testosterone ester. Basically, it is converted into dihydrotestosterone, so Undecanoate aromatize is minimal. Consequently, under the influence of the Undecanoate in the body does not show signs of feminization (eg, excessive accumulation of body fat, gynecomastia). During the treatment with Testosterone Undecanoate, it does not affect the natural production of testosterone in the human body. Testosterone Undecanoate provides a lasting impact.

- Product: Undecanoate 250 mg 10 ml
- Category: Injectable Steroids
- Ingredient: Testosterone Undecanoate
- Manufacture: Dragon Pharma
- Qty: 1 vial
- Item price: \$60.50

Discussion: Yes the placebo AND exercise group did gain 1.9kg thus supporting the fact that, as a natty you can make GREAT gains in 10wks assuming you lift hard & follow a progressive training program however, what I want you to take away from this post is that, administration of test ALONE with NO EXERCISE still increased FFM by 3.2kg in 10wks. 3.2kg of extra FFM from NOT lifting at all! Add lifting to the mix & test produces a 6.1kgFFM gain in 10wks ie. 4.2kg MORE than natties training their asses off. A later study by the same authors (Bhasin et al 2001) showed similar in that supplementation with 600g test/week produced a gain of ~8kgFFM with a 75% increase in strength in 20wks, again WITHOUT lifting
