  - ▶ **AUDIO PERVERT**

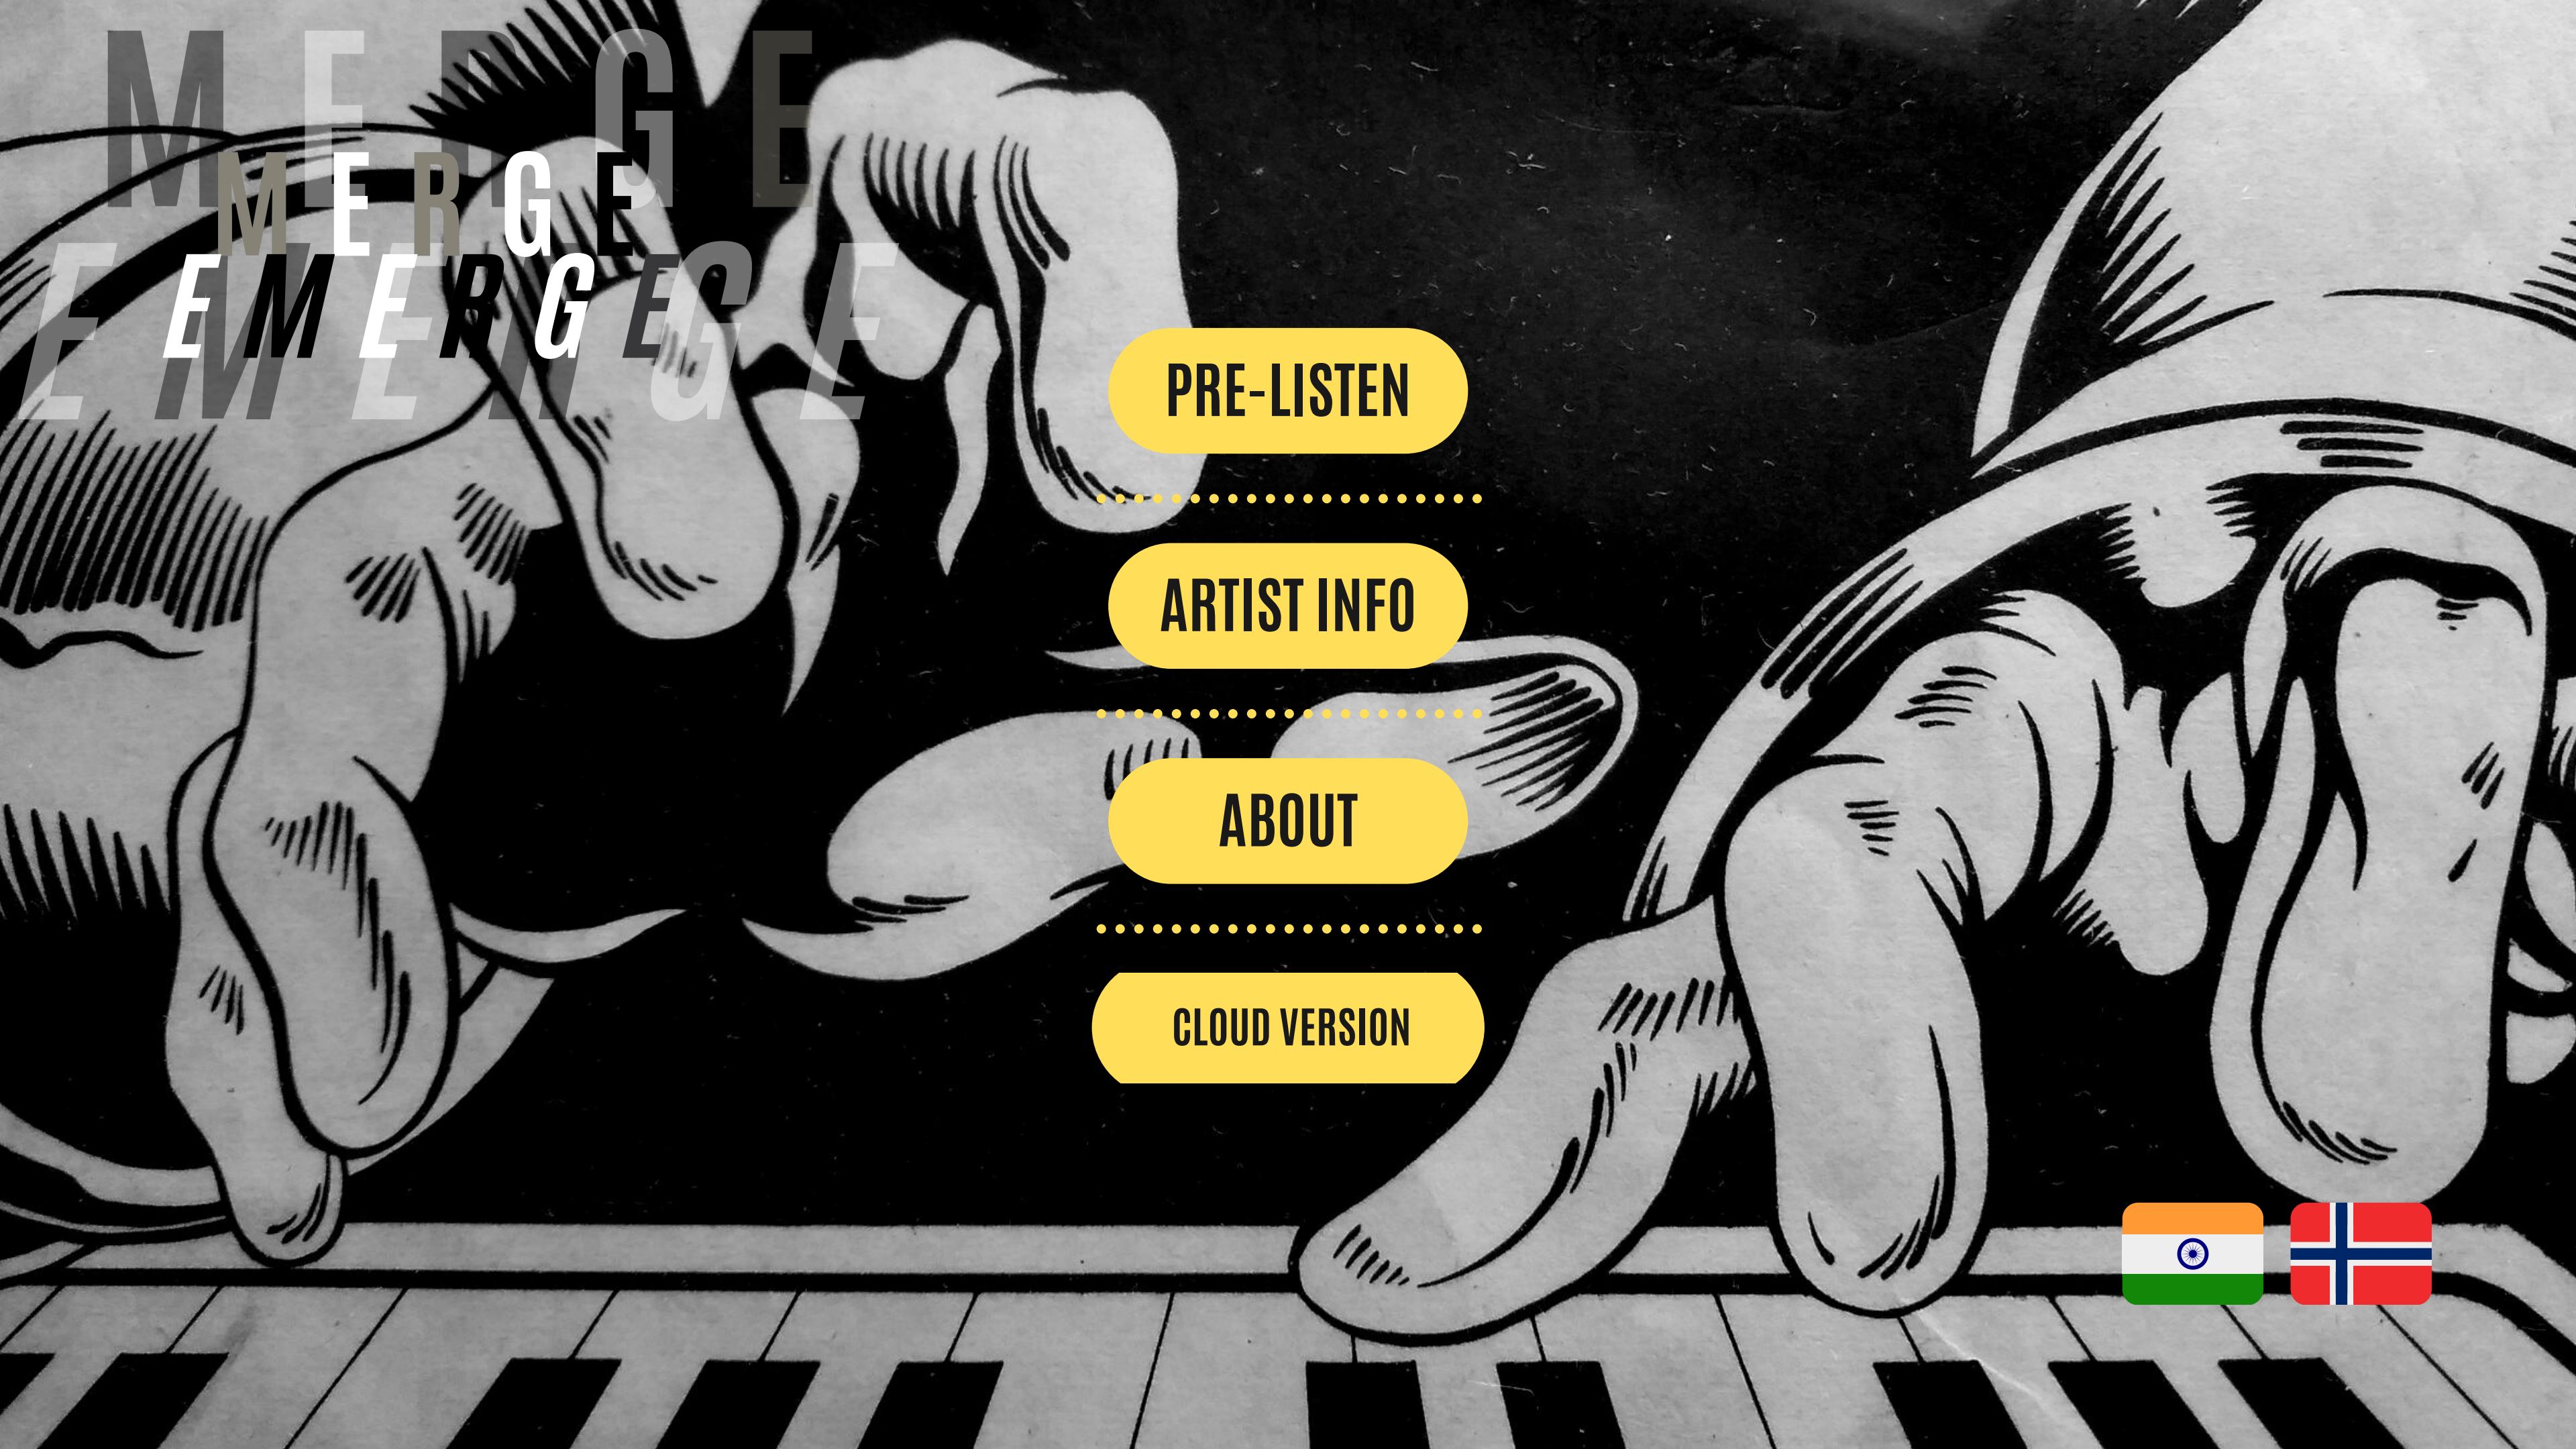

**A motley group of artists from India and Norway merge** into a first-of-its-kind bi-lateral collaboration. A potent opportunity for artists and electronic music culture to transcend boundaries. Electronic music, a global idiom forms the basis to create new connections, opening up to new audiences and markets. **Merge Emerge - 'mutually triggered music and empowerment'**.

**The curators of Merge Emerge, Endre Dalen and Audio Pervert,** have created several independent projects, across continents keeping focus on the nativity of electronic music, from Norway and India. They passionately believe in the power and response of independent music. **The responsibility as individuals, to develop new pathways, artist interaction and proto-cultures.**
