

# Al-Wahba Crater Taif

The **Al Waba crater**  
(Maqla Tamia in Arabic)  
is 254 km from **Taif**.

It is 250 m (820 ft) deep and  
2 km (1.2 mi) in diameter.  
The bottom of the crater is  
covered with white **sodium  
phosphate** crystals

**Walking through the crater**

***Pride  
rock  
of Wahba***
