Introduction

- xMFA is the a Token and NFT project, that will connect people easier with crypto mining industry.
- xMFA plan is to recreate a cloud mining idea, and let the users control a percentage of mining using XRP.
- xMFA token
 - Used on daily basis transactions.
 - xMFA token can be exchanged through XUMM and other DEX.
 - Total supply of 100.000 xMFA tokens.

The Problem

- XRPL platform currently does not provide a crypto mining utility, and there is a reason for that, XRP is not mineable, which led us to an idea that we could share crypto mining with a community that does not have the opportunity to enjoy that, or the community cannot afford a full mining rig set.

The Solution

- xMFA will give the community to learn and experience how mining works, and how to make income on the side, by providing them part of xMFA mining.
- xMFA will also provide Token and NFT's .
- xMFA engine will work by assembling GPU Mining rigs, of which a % of profit earnings will transfer back to xMFA, and by that rising its price, or by burning xMFA also in a form „Buy back n' Burn” making its supply smaller but more worthy.
- Owners of xMFA will have a direct benefit of steady and stable price raising.
- Owners will have a Vote on Burning operations.
- By that we are making the impossibility of mining on XRPL to be semi-direct.
- Limited supply of 100.000 xMFA Tokens

About crypto mining

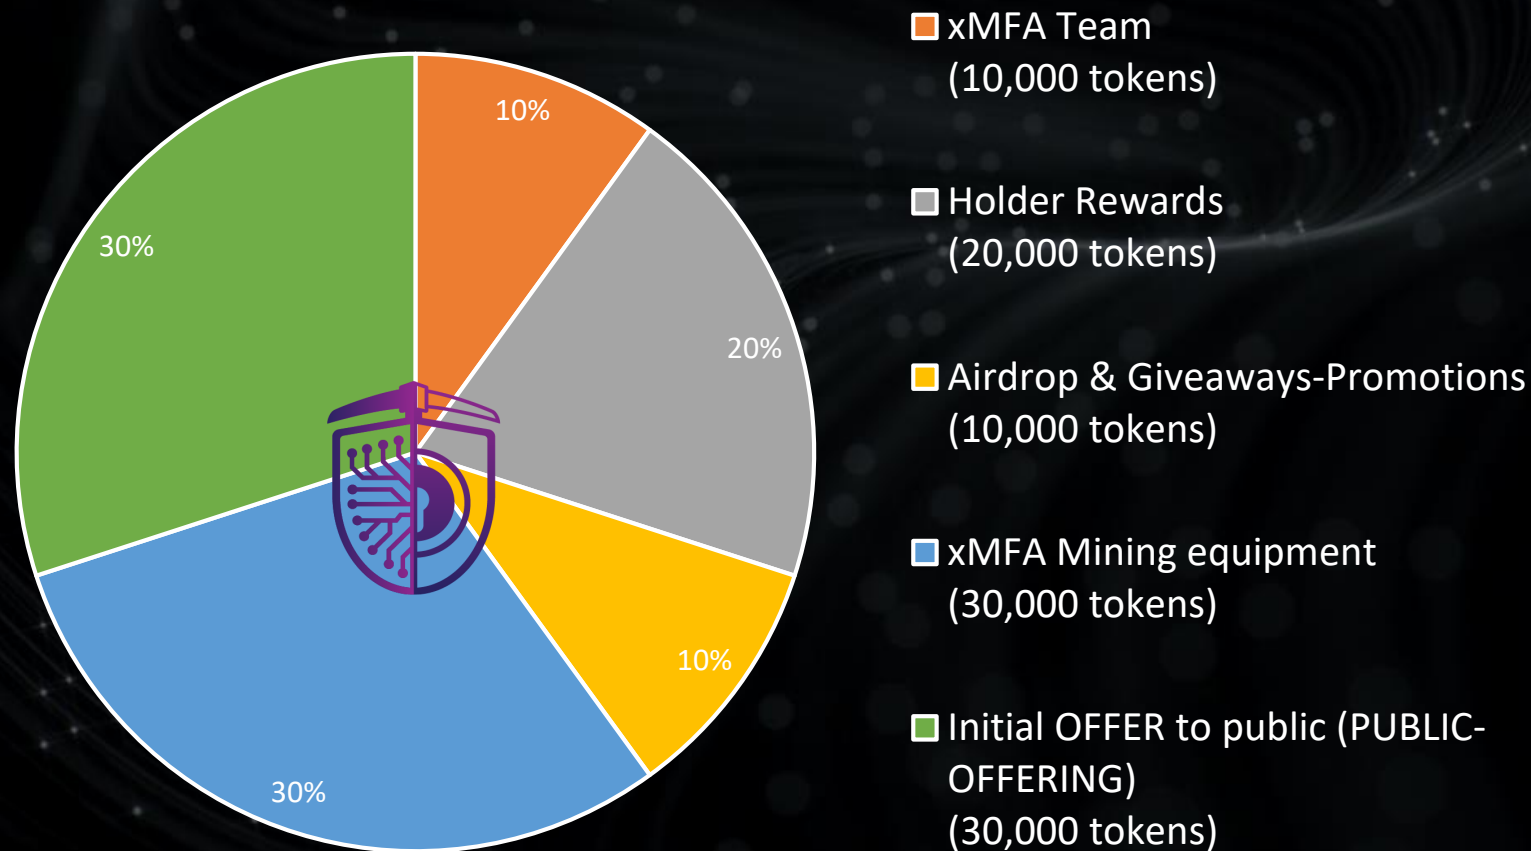

- What Is crypto mining? Crypto mining is the process by which new cryptos are entered into circulation. It is also the way the network confirms new transactions and is a critical component of the blockchain ledger's maintenance and development.

xMFA NFT collection

- The xMFA NFTs will have a number of collections providing a certain amount of NFTs available to the public.
- Each collection category will provide the community with certain benefits.

\$xMFA Tokenomics

- xMFA tokenomics- full supply will be 100.000 tokens

Rewards for xMFA Holders

- xMFA token holders
 - xMFA token will be rewarded once a month until the rewards wallet is emptied.
 - 20,000 xMFA tokens will be rewarded based on the percentage you own of the circulating supply.
- NFT owning benefits
 - For xMFA NFT owners committing to use xMFA:
 - Bigger % of APY from mining rigs.

Token Security

- Committed to transparency from the outset so that all community members and customers will know what to expect.
- Transparency with our reserves management and put steps in place to ensure that token reserves are subject to real wallet restrictions that will prevent Rug Pulls.
- We have researched and presented a XRPLedger project that is anchored on real use cases, that will deliver real value and value growth.

Marketing

- Marketing will take place through the official xMFA website ,and other social networks, including Telegram and Twitter. After some time marketing will be expanded on numerous other platforms.
- Advertising will be through Online media.
- Marketing may also take place on known crypto affiliated websites such as Coinsniper, Coinmarketcap and Coingecko and others.
